FINANCE DEPARTMENT.

ACCOUNTS AND FINANCE—MISCELLANEOUS.

Simla, the 26th May 1924.

No. 1412-F.—The question of instituting a scientific enquiry into the system of Indian taxation has recently attracted considerable attention in this country and has been discussed on more than one occasion in the Indian Legislature. The Government of India are now in a position to announce that arrangements have been completed for such an enquiry.

2. The reasons for the appointment of the Committee is not any need for meeting additional expenditure or any intention to increase the total amount raised by taxation in India. The necessity for the enquiry arises largely from the effect produced by the war on the general level of prices and of expenditure and consequently on the incidence of taxation in its existing forms. The problems arising therefrom are common to many countries, but in India the changes which have been made since the war in the relations between the Central and the Provincial Governments, and the development of self-government furnish special reasons for a study of the subject of taxation in general and for the examination of alternative sources from which to raise the money to meet the expenditure which has necessarily to be incurred by the various taxing authorities at the present time. The increasing pressure for a more drastic regulation of the liquor traffic in particular makes the study of alternative sources of taxation imperative while the modifications in the existing system of taxation which may be expected to result from action taken on the recommendations of the Indian Fiscal Commission and the Tariff Board, will disturb the distribution and affect the real burden of taxation borne by the people of India.

3. The intention of the Government of India to institute this inquiry was announced in the Council of State on the 4th February 1924, when the proposal was discussed in some detail. Reasons were then given for the opinion of the Government of India that the terms of reference should be comprehensive and that the enquiry should be conducted by a small committee, equally representative of European and Indian experience, and including an officer with wide knowledge of Indian administration, an Indian representative of acknowledged authority in economic questions and an expert on taxation from abroad.

4. Sir Charles Todhunter, K.C.S.I., I.C.S., till recently Finance Member of the Executive Council of the Governor of Madras, has agreed to act as Chairman of the Committee. The Government of India have also been able to secure the services of Sir Percy Thompson, K.C.B., Deputy Chairman of the Board of Inland Revenue in England. The following gentlemen have also consented to serve on the Committee:—

Sir Bijay Chand Mahatab, G.C.I.E., K.C.S.I., I.O.M., Maharajadhiraja Bahadur of Burdwan; and
Dr. R. P. Paranjpye, Professor, Fergusson College, Poona.
Mr. W. B. Brett, I.C.S., will act as Secretary.

5. The following are the terms of reference to the Committee:—

(1) To examine the manner in which the burden of taxation is distributed at present between the different classes of the population.

(2) To consider whether the whole scheme of taxation—Central, Provincial and Local—is equitable and in accordance with economic principles and, if not, in what respects it is defective.

(3) To report on the suitability of alternative sources of taxation.

(4) To advise as to the machinery required for the imposition, assessment and collection of taxes, old and new.

(5) To prepare rough estimates of the financial effects of the proposals.

(c) To include in the inquiry consideration of the land revenue only so far as is necessary for a comprehensive survey of existing conditions.

The terms of reference have been formally accepted by all the Provincial Governments without prejudice to their claims in regard to the distribution of the total revenues.

6. It will be observed that the Committee will have no concern with expenditure nor will it be part of their function to examine the adequacy of the assessment of different governing bodies. Their concern will be principally with the burden imposed on classes of the population without regard to territorial limits. The estimates they will frame will be designed to illustrate methods of easing the burden where it is too heavy and of increasing it where it is too light. They will indicate the theoretically correct distribution of taxes between Imperial, Provincial and Local and the most efficient machinery for collection, whether it follows the same lines of division or not. It will thus be no part of the duties of the Committee to consider the equity of the Meston award.

Similarly as regards land revenue, the Committee will not be required to make suggestions regarding system s of settlement. But it will be within the scope of the enquiry to study the incidence of the land revenue (including water rates) and to point out any defects from the point of view of the canons of taxation or any difficulties in readjustment of the burden of taxation.

7. It will be within the terms of reference to the Committee to institute such an enquiry into the economic condition of the people as the Committee may consider necessary for its purpose and to report on the adequacy of the material already available, making suggestions as to the best manner in which it may be supplemented and the most suitable agency for a wider economic enquiry.

A Resolution on the subject of a wider enquiry into the economic condition of the people of India was in fact moved by the Hon'ble Mr. Phiroze C. Sethna in the Council of State on the 4th February 1924, and adopted in the following form :—

"That this Council recommends to the Governor-General in Council that the Local Governments may be consulted with regard to the desirability of undertaking an inquiry into the general economic conditions of British India and whether they are prepared to support the proposal to appoint a Committee and to co-operate in its labours if appointed."

The Government of India consider that the present enquiry is likely to provide material of much value for any inquiry which may subsequently be made into the wider aspect of the Indian economic position.

8. The Government of India have discussed the preliminaries with the Chairman who has now left India on leave. With the object of getting as full information as possible of the systems of taxation in European countries, he is, with the concurrence of the Government of India, visiting Geneva to study European and other taxation systems with the assistance of the Secretariat of the League of Nations. It is proposed that the Committee should assemble in India about the last week of October and in the meantime preliminary statistical material is being collected with the assistance of the Provincial Governments for the use of the Committee.

9. The Government of India hope that the enquiry may be completed within a year. The Committee will report to the Government of India, who in consultation with the Provincial Governments will consider the further action necessary. Opportunity will then be taken to have a full consultation with the representatives of public opinion and the Legislature before any action is taken.

R. W. DAVIES,
Secretary to Government.

E.P. No. 6 of 1924.

Between

Komaran Raman *alias* Kovalappara Moppil Nayer .. .. *Petitioner.*

and

K. Sadasiva Bhat .. .. *Respondent.*

The election petition presented by the petitioner above named on the 18th day of December 1923 to His Excellency the Governor General against the election of M.R.Ry. K. Sadasiva Bhat Avergal as a member of the Indian Legislative Assembly by the West Coast and Nilgiris Non-Muhammadan Rural Constituency at the election held on the 31st day of October 1923 having been forwarded to us for inquiry and report and the petition coming on for orders to-day in the presence of Dr. S. Swaminathan, Counsel for the petitioner, and of Mr. K. S. Krishnaswami Ayyangar, Vakil for the respondent, we beg to submit the following

Report.

1. The prayer in this petition is that the election of the respondent as a member of the Legislative Assembly for Malabar, South Kanara and the Nilgiris be set aside on the ground that he has been guilty of a corrupt practice within the meaning of rule 4 of schedule V of the rules for the nomination and election of members to the Legislative Assembly, in that he published false statements that the petitioner, when a member of the Legislative Assembly, 'sacrificed the real interests of the people' " by his voting with the Government for the enhancement of the salt tax " and " by his failing to join in the struggle against the present unequitable Provincial impost " It is alleged that it is false to say that the petitioner did so vote, or did so fail to join in the struggle against the impost.

2. The latter allegation appears to us wholly an expression of opinion of the petitioner's political conduct and no question of its truth or falsity in fact arises. The former statement, viz., that the petitioner voted with the Government for the enhancement of the salt tax is the gravamen of the charge against the respondent. It is alleged that during the course of elections in October last, the respondent published in manifestoes and pamphlets issued by him in his electoral campaign this grave mis-statement of fact, which mis-statement was reasonably calculated to prejudice the prospects of the petitioner's election.

3. It is admitted by the respondent in his written statement that it is a false statement As a matter of fact, the petitioner did not vote at all on the question, but was absent at the division. It is further admitted by the respondent that in various leaflets published and used by him in his campaign, this mis-statement appeared, *e.g.*, leaflets Exhibits A, C and D-2, dated 30th September

1923, in English, Exhibits A-1, C-1, D, D-1, D-3, G and G-1 of the same date in Kannarese. Exhibits B, E 1 and E-2 are letters of the same date by respondent to the editors of three local South Kanara newspapers enclosing copies of Exhibit A styled "An Electoral Manifesto." Only one of the three newspapers appears to have printed the manifesto, viz., the *Mangalore Mail*, in its issue of 28th October 1923 (A-2).

4. That such leaflets circulated in South Kanara during the electoral campaign up to the date of the election is proved by P.Ws. 2, 4, 6 and 9. P.W. 3 deposes that at respondent's request he printed 5,000 copies of Exhibit C-1 and several hundreds of copies of Exhibits A, C, D, D-1 and D-2. These were circulated in South Kanara, but not, so far as appears, in Malabar. They were printed and issued for circulation under respondent's orders and instructions. There can be no doubt of the fact of the publication by the respondent.

5. Respondent's defence is (1) that when he drafted these leaflets and got them printed, he bona fide believed that the petitioner had voted for the enhancement of the salt tax, (2) that he bona fide believed so until some weeks after the election was over and (3) that in any case the statement is not one in relation to the personal character or conduct of the petitioner.

6. As to the first point, respondent produces Exhibits III, V and VI, two letters from political friends, and an issue of the *Sanjaya* newspaper, dated 27th September 1923, all implying, if not categorically stating, that petitioner had voted for the enhancement. Respondent pleads that his own general impression of mind was the same and that these statements confirmed that impression, and therefore he did not go further and attempt to verify the matter from the division lists of the Legislative Assembly, which no doubt he might have bought or had lent him by others. It appears to us to be true that when the propriety of the Viceroy's power of certification came again before the Legislative Assembly, the petitioner did vote to uphold the certification. We are prepared to accept this evidence as indicating that the respondent did not, on 30th September 1923, when the above leaflets and letters were drafted, deliberately make a statement which he knew to be false or did not believe to be true, though we are bound to record our opinion that he did not show sufficient caution or diligence in inquiring before making such allegations against a political opponent. But incidentally we may remark that the petitioner himself did nothing either by way of direct communication with the respondent or by issuing counter leaflets to correct the mis-statement.

7. As to the second point, it requires more detailed consideration. Respondent apparently did not draw up leaflets for circulation in Malabar until 8th October 1923, when he drew up Exhibits I and I-A for that purpose, Exhibit I being in English and Exhibit I A in Malayalam. In these documents any reference to the salt tax and the petitioner's conduct thereon is omitted along with much other matter which appeared in Exhibit A series. Respondent's explanation is that he was not satisfied with the tenor and phraseology and general ideas set out in his first efforts and so he compiled a new one, Exhibits I and I-A. We confess ourselves not satisfied with this explanation. Exhibits I and I-A are very colourless documents and we cannot imagine that if the respondent still believed thoroughly in the truth of his previous assertion that the petitioner had sacrificed the interests of the people by voting with the Government for the enhancement of the salt tax, he would not have reiterated that excellent political cry in his new pamphlets. Taking all the circumstances into consideration, it appears to us that, between the two dates, 30th September 1923 and 8th October 1923, respondent had received some information which made him, at any rate, doubtful as to the truth of his former statement. It is significant of this that though the Exhibit A leaflets in English would have equally served for Malabar as they did for South Kanara, they were not so used in that district although they were not withdrawn from circulation in South Kanara. It is suggested, and we think that there are grounds for the suggestion that he did not regard Exhibit A as suitable for circulation in a district in which the petitioner's doings in the Assembly may have been better known than they were in South Kanara. This inference of ours is strengthened by the evidence of P.W. 8, a lawyer of the Calicut Bar, who says that about 19th October 1923 in the Bar room at Calicut, during a general conversation when the respondent was being accounted responsible for spreading about this false story of petitioner's voting for the enhancement of the Salt tax, he disclaimed responsibility, and in proof of his innocence, produced Exhibits I and I-A and also Exhibit H. Exhibit H is a letter, dated 18th October 1923, drafted by the respondent himself for circulation to the members of certain Bars in Malabar. It also omits the mis-statement contained in Exhibit A series, but speaks of 'the inconsistent attitude' of the petitioner regarding the salt tax. Respondent does not remember his conversation at the Calicut Bar, but we can see no good ground for rejecting the general story given by P.W. 8, which appears to us both natural and true. It is clear then that at that juncture the respondent's disclaimer of responsibility was wholly disingenuous. Pamphlets of his were then circulating in South Kanara containing the mis-statement. He avoided mentioning these and called attention to Exhibits I and I-A only. We are of opinion that the only reasonable explanation of respondent's conduct at this time and of his change of language in Exhibits I and H respectively, whereby the original charge against the petitioner of voting with the Government for the enhancement of the salt tax had been watered down to a vague charge of inconsistent attitude regarding the salt tax, is that in the interval he had come to know that the statement in Exhibit A was not true, or at least that he had no longer any good grounds for believing it to be true. The language of Exhibit H goes far to indicate that by then he had ascertained the true facts about petitioner's attitude and action in the matter of the salt tax and the respondent's conduct about this time is no longer consistent with his true and genuine belief that the statement in Exhibit A was true. Had he retained that belief, that would have been the defence which he would have put forward in the Calicut Bar room, and not a disingenuous disclaimer that he was personally responsible for the rumour that the statement was true. It is clear to our minds that he was then aware that the statement was not true and that he could no longer with safety run the risk of reproducing it in his new circulars.

8. It was obviously his duty at this stage to arrest the further publication of the mis-statement in South Kanara and to publish and circulate corrections in all the localities in which the mis-statement had been published, and overtake, so far as he could, the mis-statement to which he himself had given such a start. So far from doing these things, it is in evidence that no alteration was made in the publications in South Kanara and that the original leaflets were being circulated within the

last ten days before the election and up till the election date (see P. Ws. 2, 6, 7 and 8), while on 28th October 1923, only three days before the election, the *Mangalore Herald* published the original manifesto of 30th September 1923 (Exhibit A-2), and P.W. 1 asserts that respondent himself asked him about 24th October 1923, i.e., five days before the Cabinet Bar meeting, to insert that manifesto free of charge.

9. We think that the conclusion is irresistible that, at any rate about 25th October 1923 if not earlier even on 6th October 1923, the respondent did not believe the statement to be true, and yet allowed its publication to continue, and we feel no doubt, therefore, that the respondent did publish regarding the petitioner a statement which he did not believe to be true—a statement reasonably calculated to prejudice (as in Exhibit A it was designed to prejudice) the prospects of the petitioner's election.

10. The remaining question is whether this statement is a statement in relation to the personal character and conduct of the petitioner. This is a point which has been strenuously argued on both sides. We think that the correct method of deciding the point is to determine first, assuming that the statement that the petitioner voted with the Government for the enhancement of the salt tax is true, whether that would be a statement in relation to the petitioner's personal character and conduct. We are agreed that it cannot be so held. No sort of reflection or imputation is cast on the petitioner's character or conduct by the mere assertion that he voted on a parliamentary measure in a particular way. It is an assertion of a historical fact, a mere setting forth of an account of a political act of the petitioner in his political career. What result that act may have had on the interests of his constituents, whether it will, for instance, be a sacrifice of their interests or not, is not a question of fact, but of opinion, and any statement to that effect is not a statement of fact, but a statement of opinion, and, therefore, will not come within the mischief of the rule.

11. This conclusion is strengthened by a reference to certain English Election cases which have been cited to us, and which have a particularly pertinent bearing on this point, since the very language we are now considering has been taken *en bloc* from the English Corrupt and Illegal Practices Prevention Act, 58 and 59 Vic. Chap. 60 in 1895. Six election cases under that Act have been cited to us, reported in Vol V, O'Malley and Hardcastle, pages 93, 95, 153, 156 and 214, and Vol. VI, O'Malley and Hardcastle, page 103. In all these the general principle is that a statement in relation to the personal character and conduct of a candidate must import some reflection or imputation on that character and conduct. The two cases most in point are the North Louth Case, VI O'Malley and Hardcastle, 104, and the Cockermouth Case, V O'Malley and Hardcastle, 153. The former interprets 'personal' as antithetical to *public*, and the latter interprets it as antithetical to *political*. The latter case is particularly instructive. One of the allegations there made against the candidate was in the statement that was made:—

'Electors! Remember that the enemy was besieging British Towns and wrecking British Homes when Sir Wilfrid Lawson voted against sending men, money and supplies.'

That is, as here, the statement was that the candidate had voted in such and such a manner in the House of Commons. On this Mr. Justice Darling remarks (page 164):—

'What Sir Wilfrid Lawson desired from his conduct was, if he could get enough other people to agree with him and go into the same Lobby with him to force the Government to resign, so that there might come into office a Government holding the same opinions as himself about the war, and prepared to bring it to an end upon terms which would approve themselves to him and to his friends. But to say that is not to say that he meant to starve the troops. To say that he did that is to criticise his political conduct. It is not to criticise his personal character or his personal conduct. And further than that, it appears to me that what he said here about Sir Wilfrid Lawson and his vote is not false, it is to a very large extent true, and, as I have said, the natural consequence of the vote he gave would be a perfectly constitutional reason for the resignation of the Government and the forming of another, and would not be the starving of the troops in South Africa, and, therefore, *even if it were not true*, it seems to me that that was criticism of the political action of Sir Wilfrid Lawson, and not criticism of his personal character or conduct in any shape or form.'

That is, all comment that a man voted in such and such a manner is comment as to his political conduct and not as to his personal conduct.

12. These rulings were all in 1911 and prior years. The present rules which we are considering were published in 1923. The particular phrase which we are considering was, as we have said, taken bodily from the English Act. We think it is not too much to conclude that the framers of the rules intended this phrase to be interpreted as it had been up till 1923, judicially interpreted in England. At least we are not in this case prepared to place on this phrase a more extended meaning than it has received in election cases in England.

13. We, therefore, conclude that the statement under consideration is not one in relation to the personal character and conduct of the petitioner. The mere fact that it was false will not thereby alter its nature or bring it within the mischief of rule 4 of schedule V.

14. We, therefore, hold that no corrupt practice by the respondent has been proved and the petition cannot, therefore, be sustained and must be dismissed.

15. In the view we take of the respondent's conduct, we direct that each party bear his own costs.

Fort St. George, June 12, 1924 (G.O. No. 1578, L. & M.).

No. 616.—With reference to the rules for the preparation of electoral rolls for taluk boards issued with G.O. No. 1453, L. & M., dated 26th July 1921 and G.O. No. 258, L. & M., dated 8th February 1923, the President, Taluk Board, Dharmapuri, raises the following questions in connection with the printing and disposal of copies of the electoral rolls and the crediting of the sale proceeds thereof :—

(1) that Revenue Divisional Officers should obtain previous information from the taluk boards concerned as to the number of copies of electoral rolls to be printed in each year ;

(2) that the Taluk Board's office should be given the whole supply of printed copies for such action as may be considered necessary; and

(3) that the sale-proceeds realized by the Revenue Department should be credited to the Taluk Board funds.

2. As electoral rolls are printed at the cost of the taluk boards, it is necessary that the number of copies of the rolls or of the lists of corrections and additions thereof to be printed in each year should be settled by the Registration Officer in consultation with the president of the taluk board concerned. The sale-proceeds of the rolls or the lists should also be credited to the taluk board. It is not clear whether the President, Taluk Board, Dharmapuri, intends that copies of the rolls used by Revenue Divisional Officers for the purpose of election should be paid for. If so, the proposal cannot be accepted.

3. The attention of the president is invited to rules 5 and 13 of the Rules for the preparation of electoral rolls for taluk boards. A sufficient number of copies of the rolls and of the lists of corrections should be left with the Revenue Officers, each officer being required to account for the copies with him. Copies which remain unsold or are otherwise undisposed of should, in due course, be handed over to the taluk board concerned.

Fort St. George, June 17, 1924.

No. 617.—The following G.O. No. 736, P.H., dated 12th May 1924, is published for information:—

Recorded.

2. The interesting report submitted by the Director of Public Health shows that the first celebration of 'the National Health and Baby Week' was attended with considerable success in all parts of the Presidency except in the districts of Guntur and the Nilgiris. The Government note with pleasure that such success was mainly due to the hearty co-operation of all classes of the general public with the sanitary authorities. A special feature of the celebration, which is full of happy augury for the future, is the greater interest shown in the Health and Baby Welfare movement in rural parts than in the towns.

3. Health propaganda was vigorously carried on in a variety of ways, such as health lectures with and without magic lanterns, dramas on health subjects, distribution of health pamphlets and posters, essay competitions on health subjects and several hundreds of thousands of people were made to realize, perhaps for the first time in their lives, the importance of the factor of personal effort in the improvement of the health of the community at large. The main object of the Health Week movement, viz., the arousing of a 'sense of personal responsibility for health', appears to have been well kept in view, and there is every reason to believe that an excellent beginning has been made towards its achievement. Besides propaganda work, a good deal of what the Director of Public Health calls 'the silent and unseen work in the way of cleansing houses and streets' was done all over the Presidency—a kind of national spring-cleaning the effect of which on the health of the people cannot but be appreciable.

4. The Baby Week celebration which formed part of the Health Week celebration was attended with equal success. In spite of the widespread superstition of 'the Evil Eye' baby shows were successfully held in as many as 150 centres, and nearly 10,000 babies were exhibited, and numerous prizes awarded. Full advantage was taken of the presence of the mothers at the baby shows for the purpose of imparting elementary instruction to them regarding maternity and child-welfare, and there were also exhibitions of model maternity beds, cradles, etc. An anonymous donor generously presented a challenge cup valued at Rs. 1,000 to the best among district baby shows—an example which it is hoped will be followed by others in future.

5. The Government note with approval that the Director of Public Health has already taken steps to see that the National Health and Baby Week movement which has begun well, is continued in the years to come. The attention of all sanitary authorities and public bodies interested in National Health and Baby Welfare is invited to the programme drawn up by the Director of Public Health, and they are requested to do everything in their power to ensure that the movement takes firm root in the minds of the masses in the country and becomes in truth what it is in name—a *National* movement.

In forwarding herewith a copy of the report of the First National Health and Baby Week celebrated in this Presidency for your information (Appendix I), I have great pleasure in congratulating all concerned on the splendid success which has attended their efforts. The result of the week has been that tens of thousands of people in each district had the baptism of first instruction in the elements of personal hygiene and cleanliness and their sense roused to the need of self-help in Health. In some of the districts like Trichinopoly and Tanjore, the total number of people who came under the pale of the week's influence is counted in lakhs. The reports received from the district authorities including chairmen of municipal councils show that there was generous and hearty co-operation between the official and the non-official elements in the carrying of the work connected with the week, which gives great hopes for the future. The sympathy and the co-operation of the public was evidenced in many ways, not the least of which was the generous contribution made to meet the expenses of the celebration. It is estimated that a sum of over Rupees 25,000 was collected from public and private sources for the celebration of the Health and Baby Week, a fair proportion of which came from private contributions. The sum collected is not large considering the vastness of the population served, but remembering that all great things begin small and considering that it was the first celebration of its kind in this Province all concerned have reason to be glad at the success that has attended their labours. In addition to the monetary contribution made for the expense of the week, in several districts generous citizens came forward with special offers, in some cases of medals and cups for prize-winners in children's sports, baby shows, competitions in health essays, etc., and in others to provide some much-needed local sanitary requirements, such as wells, etc. Of all the many gifts, the most generous one was the presentation of a challenge cup at a cost of about a thousand rupees by a well-known zamindar in Chingleput district for the best baby show put up in the mufassal, an award for which the donor cannot be adequately praised. The cup has been awarded by the National Baby Week Committee of Madras to the Trichinopoly district for the current year.

One of the great features of the National Health and Baby Week was the number of popular health lectures delivered throughout the districts, the total number of lecture centres, large and small, exceeding a thousand. In one of these centres—in Ranipet—the popular lecture on plague led to the discovery of the existence of plague in the town. Among the audience who were told that rat-fall was an indication of plague, there were some people who were aware of rat-fall in a portion of the town and who gave out the information from which the District Health Officer was able to spot the disease and take timely measures which practically saved the town from a severe outbreak. I state this as a good instance of the great value of enlightening the public on sanitary matters, especially on the signs and causes and the means of prevention of communicable diseases.

Besides the spectacular aspect of the Health and Baby Week, a good deal of silent and unseen work was done in the way of cleansing houses and streets, the combined effect of which on the Public Health must be great.

These facts clearly indicate the value of holding a "National Health and Baby Week" every year in the Presidency and I am confident that work so well begun, will not be allowed to die but will be continued from year to year with increasing vigour. The main object of issuing this circular is to bring home to every one, the need of making this an annual function. Every local body should therefore make up their minds immediately to do this and set about early enough to arrange things in coming years to make the week one of ever increasing success. The experience gained each year will help the local authorities to organize the celebration effectively and avoid the many pitfalls in the way.

In arranging the week in future, the following points should receive special consideration :—

(1) *The most suitable time for the week.*—There is little doubt that no more suitable time than the Pongal week can be fixed (with the possible exception of the Nilgiris where it may be fixed in the summer).

(2) *Management.*—This may be done as in the year past by local committees formed of officials and non-officials. All health and kindred associations should be made to co-operate in the work. A Public Health official may be selected wherever possible for the Secretary's place. In the Board of management every interest likely to benefit the committee should be represented, e.g., Revenue officers, Educational officers, etc.

(3) *Centres of celebration.*—As many centres as possible should be organized, the more, the better. In small remote villages specially trained workers in the form of village schoolmasters should be employed. In the headquarters of districts, and in the larger municipal towns the organization should be on a grand scale with much show and pomp to draw the attention of all.

(4) *Finance.*—Every municipal council, district board, local board and union board should make a special provision for the week in future in their annual budgets. In addition, contributions should be solicited from the public in the form of money and prizes.

(5) The model programme of the last Health and Baby Week is added as Appendix II to this report as it would be a guide to drawing up a programme of the week in coming years. The Madras Health Council whose main purpose is to help the diffusion of knowledge on all health questions will always be ready to help the local authorities in all manner possible. The vast service the Madras Health Council rendered for the last National Health and Baby Week is largely responsible for the success which attended that week. To the materials prepared during the last Health and Baby Week the Council would probably be able to add a lot more before the time comes round again for the next Health and Baby Week.

Whilst acknowledging the great value of the National Health and Baby Week, I should like every body to remember that propaganda work does not end with it. Far from being that is the case, it is only the beginning of a strenuous work which ought to be carried on throughout the year. The circular issued on this point soon after the receipt of the reports of Health and Baby Week which is appended explains this point clearly (Appendix III).

MADRAS,
19th *March* 1924.

APPENDIX I.

Report on the National Health and Baby Week celebrations in the Madras Presidency.

The practice of concentrating public attention on questions of national importance at certain times each year is an old one in the West and during recent years it has also been freely copied in the East. In England and other countries in the West, Health and Baby Weeks are now annual functions.

The object and immediate purpose of the Health Week is to focus public attention for one week in the year on matters of health, to arouse that sense of civic responsibility without which all public health work whether by Government or by local authorities must fall far short of its aims, to create in each individual the idea of 'Self help in health' and to make him think of what he can do for himself and his neighbours in securing a healthy life.

2. The object of the National Baby Week which has been made part of the general scheme of the National Health Week in this Province is 'to bring home to every individual the urgent necessity of saving thousands of babies which die from preventable causes every year and to arouse the individual and civic conscience on all questions relating to the welfare of mothers and babies.' A national campaign for the observance of a Baby week is therefore a good method of focussing the attention of the nation at large, on the needs of mothers, babies and little children.

3. The Public Health Commissioner with the Government of India in the beginning of July 1923 forwarded a copy of the programme for the National Health Week in England drawn up by Professor Bostock Hill with a suggestion that the same with suitable modifications may be adopted for the observance of a Health Week in this Presidency. Major Russell, the then Director of Public Health, immediately circularised all local bodies on the desirability of observing the Health Week in the areas under their control and suggested for it the week between 7th to 13th October 1923, the same as that observed in England. It was felt by several of the local bodies circularised that the time allowed was too short to organize the movement in any effective manner and expressed therefore their inability to accede to the proposal. Dr. Matthew who succeeded Major Russell as Director of Public Health in the meanwhile, thought that October with its uncertain weather conditions was not in any case suited for such celebrations in this Presidency and circularised all local bodies again suggesting to them for this purpose a week including the Pongal holidays in the latter part of January 1924 which he thought, would be more suitable from all points of view. This proposal had also the approval of the Madras Health Council. The large majority of the local bodies agreed to have the week from 14th to 19th January 1924 and this week was accordingly fixed. A suggestion has been received in the meantime from the Public Health Commissioner with the Government of India to arrange for the celebration of the National Baby Week organized by Her Excellency Lady Reading and proposed to be held in other parts of India some time in January 1924, along with the National Health Week. This was accepted. Thus it was that the National Health Week and the Baby Week came to be celebrated as one throughout the Presidency (except in the City of Madras where it was organized by a Special Committee and kept as a separate function), three days in the week being set apart for the latter purpose.

4. A model programme for the celebration of the Week was drawn up by the Director of Public Health and circulated to the Health Officers for their guidance and adoption with, of course, necessary modifications to suit local conditions. A provisional programme for the Baby days was also circulated which included exhibitions, popular lectures, Boy Scouts and Ambulance displays, baby shows and distribution of prizes.

The local bodies were advised to form committees for successfully carrying out the different activities and to enlist the co-operation of as many lady-workers as possible in the matter of organising the Baby part of the week.

5. At the instance of the Director of Public Health, the Madras Health Council readily undertook the preparation of propaganda material such as posters, pamphlets, lantern slides, specimen lectures, etc., for being supplied during the week to the various local bodies. A few useful books on public health matters such as were available with the Christian Literature Society were recommended to the local bodies for being used as guides to honorary workers and village schoolmasters in carrying out propaganda work during the week. Propaganda materials in the shape of slides, cinema films, posters, etc., were available on loan with the Bombay Bacteriological Laboratory and the local bodies were informed of the terms under which these could be had and were advised to secure as many of these as were suitable to them.

6. In spite of the limited funds and time at its disposal, the Madras Health Council were able to prepare a fairly large number of illustrated wall posters, pictorial leaflets containing as little printed matter in them as possible, and lantern slides and specimen lectures on different subjects. The material was distributed among the local bodies, the slides and specimen lectures being supplied exclusively to the District Health officers.

7. The presidents of local boards and chairmen of municipal councils were from time to time circularised to carry on intensive propaganda work in their respective areas and were requested to report the progress of the arrangements made for the holding of the week.

8. On the suggestion of the Director of Public Health, the Government was approached by the Madras Health Council for a grant of Rs. 3,000 which was readily sanctioned. Out of this amount a sum of Rs. 1,000 was transferred to the National Baby Week Committee of Madras for meeting the expenses in connexion with the celebrations in the Madras City and to render financial aid to such poor districts as Anantapur, Bellary, etc., which were famine-stricken and could not find enough funds either by contribution from local boards or from local subscriptions, for holding the week.

9. On the announcement of the award of a challenge cup by a very generous anonymous donor, for the district which organized the best Baby Show, the local bodies were circularised to submit a clear and detailed report on the several activities connected with the Health and Baby Week celebrations soon after the week was over in their districts. These reports were to serve as one of the bases on which the award of the cup was to be determined. A questionnaire on the suitability of the material supplied was issued and suggestions for their improvements, if any, were invited.

10. It is highly gratifying to note from the reports received that the Week was celebrated with great enthusiasm and success in all the important centres and in many districts even in remote villages. With the co-operation of the leading citizens of each centre and that of the Revenue authorities, the Educational and Medical departments, private medical practitioners, local associations such as the Indian Red Cross Society, Young Men's Christian Association, Young Women's Christian Association, Social Service Leagues, etc., interested in public health matters, the priests, and purohits of all religions, and the Press, the local authorities formed committees and chalked out in advance a detailed programme of work during the Week and raised the requisite funds. By giving wide publicity through posters, issue of notices and beat of tom-tom, etc., and by holding mass meetings at frequent intervals, they roused and sustained the enthusiasm of the public. With the exception of a few districts which were affected by famine or epidemics, the local bodies liberally contributed towards the expenditure of the Week. It may be said that the whole Presidency felt the occasion as a national call.

11. Besides medical men, school teachers and several honorary workers were specially coached up in advance and took part in propaganda work both in schools and at public meetings. Several districts supplemented the propaganda material supplied to them by the Madras Health Council by preparing locally posters, models of exhibits, charts, etc., and printing health leaflets and programmes for distribution broadcast. Literature obtained from the National Baby Week Committee of Delhi and Baby flags were also secured and distributed to the local bodies.

12. Magic lanterns and slides lent by the Madras Health Council and the Health Propaganda Board and those belonging to the various educational institutions and private associations were utilized to the full in each district. In very many centres, magic lantern demonstrations were given. Posters on malaria, smallpox, plague, flies, relapsing fever were utilized to the best advantage by posting them in all prominent places, such as schools, railway stations, etc., where people gather and wait for some time.

13. In most of the district headquarters as in the Madras City, exhibitions were arranged on a large scale and they were formally opened in a manner befitting the occasion. The exhibition was divided into several sections such as, Infant Welfare and Maternity, Infectious Diseases, Sanitation, etc. Model maternity rooms were fitted up side by side with the exhibition of the insanitary conditions generally obtained in private dwellings so as to bring out forcibly the great contrast that existed between them. Demonstrations were also given at these shows how with a little care and forethought things could be managed in a manner advantageous to the mother and baby at a critical period of life. Different types of infant food with instructions as to how they should be used and how to be adapted to the age and general conditions of the baby were also exhibited. Posters showing the methods of spread of infectious diseases and the means of their prevention were also displayed.

14. In fact, no pains seem to have been spared in making the exhibitions as attractive and as educative as possible particularly to the illiterate mass of the people. Exhibitions would have been organized in more places if more material such as charts, model posters, etc., were available.

15. In about 150 centres baby shows were held. In spite of the wide superstitious belief and purdah system obtaining in many parts of this Presidency, women, rich and poor, assembled in large numbers with their babies and children in many places and the competition in the matter of receiving prizes in some places seemed to have been very keen.

16. Invariably at these shows, lectures either ordinary or accompanied with magic lantern exhibitions on subjects bearing on pre and post-maternity periods, on infant-feeding and clothing and generally on the proper up-bringing of children, were delivered. The danger of employing untrained midwives during confinement was well brought home to the women. The necessity of maintaining clean houses was also well impressed. The services of lady doctors and educated women were utilized wherever available in this matter.

17. During these shows many poor mothers were fed and in some places they were presented with saris. Babies were given warm baths, fed with milk and presented with jackets. Handsome presents in the shape of cups, spoons, medals, etc., were presented to the best cared-for babies.

18. A whole day was set apart exclusively for children and on this day a very large number of children in the locality including boys and girls in schools were assembled and marched in procession through the main streets carrying banners decorated with mottos on health subjects to the accompaniment of band and music. The effect of such processions seemed to have been great. Sports, wrestling matches, scout displays, girl guides' parades were arranged to impress on the mind of the people the value of the physical development as an aid to nation building. Before dispersing sweets were distributed among the children.

19. During the week, special attention was paid to the cleaning of houses and of the towns and villages by the employment of special labour. In some places lime was freely supplied for white-washing houses. Keen competition in the matter of house-cleaning was set up among the depressed classes by offering special prizes.

20. To stimulate interest in matters of public health among students of the high school classes, competitions in essay writing were arranged by awarding special prizes. In a few places health propaganda was made very attractive and impressive by the enactment of health dramas specially written for the occasion and by dialogues on health subjects.

21. During the week special sermons on the importance of the observance of health laws were preached in churches and prayers were offered in temples and mosques for the maintenance of national health and prosperity. The week on the whole could be looked upon as one of unqualified success, considering that the movement was the first of its kind in the country. Though the week was organized in the beginning more or less as an experiment, the way in which the idea had caught the imagination of the people and the zeal and keen interest evinced by all classes are very encouraging and it is hoped that this function will become an annual affair.

22. Although the scheme has been directed by me from Madras it is largely to the liberal and unstinted response given to it by all concerned in the districts the success of the week in the mufassal is due. The Presidents of District Boards, of Local Boards, of Union Boards and Chairmen of Municipal Councils have with very few exceptions actively interested themselves in the affair. Not a little of the success is due to the warm interest evinced in and support given to the movement by the Revenue Department beginning with the Collectors of districts and by the Educational Department beginning with the District Educational Officers. The medical men and women of public service and private will always be the mainstay of a movement like this and to them should naturally fall the bulk of the credit of its success. But there was one body behind all these, a band of workers without whose warm interest it would have been impossible to organize and carry out such a large show so successfully and that body was the district health staff.

23. The report cannot be closed without an expression of the country's great gratitude for the great support given to the movement by Their Excellencies Lord and Lady Willingdon whose interest in the uplifting of the poor and the relieving of suffering is a by-word throughout the country.

24. The numerous services rendered by the Madras Health Council, more especially by its President Mr. A. M. McDougall and by its Secretary Dr. B. Ethirajulu and by the Director of the King Institute Major Cunningham and his Assistant Mr. Raghava Chetty and by the Health Propaganda Board in the celebration of the week are also very gratefully acknowledged.

Thanks are also due to the Press both in Madras and in the mufassal for having given wide publicity to the movement and for its ready help at all times.

25. I also express my indebtedness to Dr. A. Lakshmanaswami Mudaliyar, Honorary Secretary, National Baby Week Committee of Madras, for his many valuable suggestions in connexion with the management of the Baby part of the week.

26. A separate report on the National Baby Week celebration in the Madras City will be issued by the Honorary Secretary of that committee.

The Health Week in the Madras City was celebrated on an elaborate scale, the whole of the large upper floor of the Moore Pavilion in People's Park being taken up for the exhibits, where also in the body of the hall lectures were delivered every day. Great credit is due to the Health Officer Dr. Raghavendra Rao and his staff for the splendid show they put up.

APPENDIX II.

PUBLIC HEALTH DEPARTMENT.

R. No. 2008–14, P.H. OFFICE OF THE DIRECTOR OF PUBLIC HEALTH, MADRAS, *dated the 18th December* 1923.

To

All District and Municipal Health Officers.

A model programme of work for the ensuing 'Health and Baby Week' is forwarded to all district health officers for guidance. It can be easily carried out in every locality and may be adopted with such alterations as may be considered necessary to suit local conditions. In the larger towns such as the headquarters of districts, where health exhibitions are arranged, a more formal opening of the week will be found possible and may accordingly be arranged. Lectures with or without magic lanterns explaining the aims and objects of the 'Week' may be arranged to be delivered by the organizers and others qualified to undertake such work.

In places where it is not possible to have a regular 'Baby Show', it may be possible to arrange to give the poor children of the place a clean wash and change if possible of clean clothes. They may then be collected in a central place where distribution of sweets to them may be arranged.

Draft programme.

First day (which is the Pongal day)—*Morning—House-cleaning.*—On this day every one must make it a point to overhaul his house. All the things in the house must be cleaned and exposed to the sun. The whole house must be swept clean and white-washed if possible. All the old useless things in the house of which there are often larger heaps affording shelter to rats and other vermin should be thrown out. After cleaning the house the things must be put back neatly.

Evening.—A Health lecture on 'Healthy house and its requirements and importance' may be delivered. This can be done even in villages with the aid of village schoolmasters trained for the purpose.

Second day—Cleaning the town or village.—On this day every man must attend to the cleanliness of his surroundings. All rubbish collections and manure heaps near the house either within his own premises or in the public street in front of his house should be removed to a safe distance. The cleaning of public streets lanes and vacant house-sites should be done either by the union in unions or by the combined efforts of the public in non-union areas.

A health lecture on 'Conservancy and sanitation of villages and towns', may be delivered in which the danger of their neglect and the adequate recognition on the part of each individual of the importance of living amidst clean and healthy surroundings and helping to maintain these as far as it lies in his power should be explained. This is what is generally termed as the awakening of the 'civic conscience' when every individual realizes his responsibility in regard to these matters, neglect of any which may endanger not only his health but also that of his neighbours.

Third day—Morning—Baby bath.—On this day every mother should give a nice bath to all her children and dress them in clean clothes. Arrangements may be made in two or three centres to keep warm water and soap to bathe the children of very poor people. These children may then be collected in a central place as stated before, either for the baby show or for distribution of sweets. Care should be taken not to bring out of their houses sick children.

Baby show.—All children below one year of age should be collected in a convenient place, and competent judges previously appointed should decide which are the healthiest and best-cared-for babies and give them prizes. This will afford a stimulus to the poor and the ignorant to learn the proper ways of bringing up children. Where funds are available, the mothers of the poor children may be fed. After this, a short address may be given to the women gathered on 'how to bring up healthy babies.'

Evening.—Lectures on 'Maternity and Child Welfare' with the aid of magic lanterns may be delivered wherever possible. Exhibitions of things connected with maternity and child welfare, if any, may also be arranged if possible.

This day's work may be entrusted mainly to ladies.

Fourth day—Bathing day.—On this day every grown up person should take a bath and put on clean clothes.

In the evening a mass meeting may be held and lectures on general sanitary principles, and the causes and prevention of common diseases may be delivered. To attract people to the meetings, scout displays, sports for school children, wrestling matches or other attractive shows may be held.

Fifth day—Prayer day.—On this day prayers and poojas may be held in churches, temples and mosques and lectures on 'Hygienic principles' from a religious point of view may be delivered. Every religion has some sound hygienic principles which are enjoined on its followers—such as the preservation of drinking water, disposal of the excreta, personal cleanliness, nuisances, etc. These may be explained to the people. Hygienic principles from a religious point of view would appeal all especially to the uneducated masses.

Sixth day—Children's day.—On this day, all the school children should be collected in a place and they may be treated to light refreshments after which a scout display and sports may be held and prizes given. Lectures on elementary principles of hygiene with the aid of diagrams and magic lanterns may be delivered to the assembled children. After this a procession of children with suitable banners may be done. A health lecture on the value of early moral sanitary training of children may also be delivered.

APPENDIX III.

R. No. 566, P.H. OFFICE OF THE DIRECTOR OF PUBLIC HEALTH, MADRAS,
dated 11th March 1924.

To

All District and Municipal Health Officers.

The Director of Public Health desires to congratulate all officers of the district and municipal health staff for their whole-hearted efforts during the recent Health and Baby Week celebrations and for the success which has attended their efforts. While doing so, he would like to impress on all officers that only by ceaseless and constant propaganda work in health matters that success can be achieved. The district and municipal health officers should not therefore slacken their activities in health propaganda work by any mistaken idea that work for the year is over with the celebrations during the Health and Baby Week. It should be nothing of the kind. The week is only supreme effort of concentration of the activities in selected areas at a particular time—activities which should be steadily carried on throughout the year.

2. To get the maximum amount of benefit, propaganda work should be more intensively carried on than ever in those areas where there is any outbreak of epidemic with a view to enable the people to adopt the precautionary measures advocated by the health staff. This aspect of the question should always be kept in mind by the health officers, and the health staff should on these occasions be induced to make greater efforts. The public also would be glad of the immediate presence of the health staff amidst them to give them advice and assistance to protect themselves from the disease.

Every such nomination shall be accompanied by the consent in writing of the nominee agreeing to serve on the Senate if elected, and must reach the Registrar not later than ten days after the publication of the notice in the Gazette.

Statute.

11. If the number of nominees does not exceed the number of vacancies to be filled, the Vice-Chancellor shall declare such nominees to be elected.

If the number of nominees exceeds the number of vacancies to be filled, the Registrar shall announce, by notification in the Gazette, the day appointed by the Vice-Chancellor for the election, the hours between which votes may be recorded, the day and hour when the scrutiny and counting of votes will begin, the number of vacancies and the names of the persons nominated. The date of the notification shall be not less than fourteen days previous to the date so appointed.

12. Not less than fourteen days before the date fixed for the poll, the Vice-Chancellor shall issue through the post a declaration paper and a voting paper to each elector to the address entered against his name in the list of registered graduates, unless the elector has, since the publication of the list, changed his address and intimated the fact in writing to the Registrar.

Statute.

13. The declaration shall be in Form I, and the voting paper in Form II. The same serial number shall be entered on the face of the declaration paper and on the back of the voting paper. To each voter shall be issued the declaration paper and the voting paper whose serial numbers correspond to the number which the voter bears on the electoral roll.

Statute.

14. Before the declaration papers and voting papers are issued, the Vice-Chancellor shall

(a) have the name of each elector entered on a declaration paper and

(b) satisfy himself that a declaration paper and voting paper are being issued to each elector.

15. With the declaration paper and the voting paper the Vice-Chancellor shall send a cover addressed to himself in Form III; an envelope with the number of the voting paper entered on its face and a letter in Form IV.

Statute.

16. Each elector upon receipt of the papers shall, if he desires to vote in the election, sign the declaration in the declaration paper and record his vote on the voting paper.

Statute.

Statute.

17. (1) Every elector shall have one transferable vote.

(2) An elector in giving his vote—

(a) must place on his voting paper the figure 1 opposite the name of the candidate for whom he votes;

(b) may, in addition, place on his voting paper the figure 2 or the figures 2 and 3 and so on opposite the names of other candidates in the order of his preference.

18. The elector shall then enclose his voting paper in the envelope and stick it up and enclose the envelope and the declaration paper in the cover, and send the cover by Registered Post to the Vice-Chancellor so as to reach him not later than the day and the latest hour fixed for the poll. Covers received after such day and hour and covers not sent by Registered Post shall be rejected. No cover may contain more than one declaration paper and one voting paper.

Statute.

Provided that, at his option, the elector may, either in person or by an agent, deposit the cover in a ballot box at the Senate House on the day and during the hours fixed for the poll.

19. (1) If an elector is incapacitated from blindness or other physical cause from voting in the manner prescribed above it shall be competent for him to record his vote by the hand of any of the officers or other persons empowered to attest his declaration; and such officer or other person shall, on the declaration paper certify the incapacity and attest the fact of his having been requested by the elector to mark the voting paper for him and of its having been so marked by him in the presence of the elector.

Statute.

(2) The following officers or other persons are empowered to attest votes of incapacitated electors :—

Magistrates (under the Code of Criminal Procedure),
Judges of and above the rank of District Munsifs,
District Registrars,
Sub Registrars,
District Educational Officers,
Deputy Inspectors of Schools,
Principals of Constituent or Affiliated Colleges,
Headmasters of recognised High Schools, and Members of the Senate, or of the Academic Council, or of the Council of Affiliated Colleges.

20. An elector who has not received his ballot and other connected papers sent by post or whose papers, before their despatch back to the Vice-Chancellor, have been inadvertently spoilt in such manner that they cannot be conveniently used or who has lost his papers may, on his transmitting to the Vice-Chancellor a declaration to that effect signed by himself, require the Vice-Chancellor to send him new papers in place of those not received spoilt or lost; and, if the papers have been spoilt, the spoilt papers shall be returned to the Vice-Chancellor who shall cancel them on receipt. In every case when new papers are issued, a mark shall be placed against the number of the elector's name in the register to denote that new papers have been issued in place of those not received, spoilt or lost.

Statute.

21. No person shall be present at the scrutiny and counting of votes except the Vice-Chancellor, such persons as he may appoint to assist him, the candidates and not more than two representatives of each candidate appointed in writing by him.

Statute.

22. On the day and at the hour appointed for the scrutiny and counting of votes the covers received from the voters by the Vice-Chancellor, except those rejected under Law 18, shall first be arranged serially according to the numbers noted on them and counted, and shall then be opened by the Vice-Chancellor or in his presence and the declaration papers and envelopes taken out therefrom. If the inner envelope is not accompanied by a declaration paper it shall not be opened but shall be endorsed "rejected" and placed in a separate bundle. The Vice-Chancellor shall then examine or cause to be examined whether the declaration papers are the ones sent out by him and whether the declarations and attestations, if any, are *prima facie* regular. If the Vice-Chancellor is satisfied on these points he shall file the declaration papers and place the envelopes in a separate heap. If, in any case, the Vice-Chancellor is not satisfied that the declaration paper is the one sent by him or if he considers that the declaration or attestation is not in order, he shall endorse the word "rejected" on the back of the declaration paper and place it with the connected envelope in a separate bundle.

Statute.

Statute. 23. The envelopes other than those rejected shall then be opened and the voting papers taken out and mixed together by the Vice-Chancellor or in his presence.

Statute. 24. The Vice-Chancellor shall then proceed to count the votes rejecting as invalid all papers on which—

(1) the figure 1 is not marked;
(2) the figure 1 is set opposite the name of more than one candidate;
(3) the figure 1 and some other figure is set opposite the name of the same candidate;
(4) the figure 1 is so placed as to make it uncertain for which candidate it is intended;
(5) there is any mark by which the voter may be identified, *e.g.*, initials or writing of any kind.

On every paper so rejected, the Vice-Chancellor shall endorse the word "invalid" and such papers shall be kept in a separate bundle.

Statute. 25. The Vice-Chancellor shall arrange the voting papers (other than invalid papers) in parcels according to the first preferences recorded for each candidate. He shall then count the number of papers in each parcel and credit each candidate with one vote in respect of each paper on which a first preference has been recorded for him. The Vice-Chancellor shall also ascertain the total number of valid papers.

Statute. 26. The Vice-Chancellor shall then divide the total number of valid papers by a number exceeding by one the number of vacancies to be filled and the result increased by one, disregarding any fractional remainder, shall be the number of votes sufficient to secure the return of a candidate (hereinafter called the "quota").

Statute. 27. If at any time the number of votes credited to a candidate is equal to or greater than the quota, that candidate shall be elected.

Statute. 28. (1) If the number of votes credited to an elected candidate is greater than the quota, the surplus shall be transferred in accordance with the provisions of this statute to the continuing candidates indicated on the voting papers in the parcel of the elected candidate as being next in order of the voter's preference.

(2) (*a*) If the votes credited to an elected candidate consist of original votes only, the Vice-Chancellor shall examine all the papers in the parcel of the elected candidate whose surplus is to be transferred and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon.

(*b*) If the votes credited to an elected candidate consist of original and transferred votes or of transferred votes only, the Vice-Chancellor shall examine the papers contained in the sub-parcel last received by the elected candidate and shall arrange the transferable papers thereon in further sub-parcels according to the next preferences recorded thereon.

(*c*) In either case the Vice-Chancellor shall make a separate sub-parcel of the non-transferable papers and shall ascertain the number of papers in each sub-parcel of transferable papers and in the sub-parcel of non-transferable papers.

(3) If the total number of papers in the sub-parcels of transferable papers is equal to or less than the surplus, the Vice-Chancellor shall transfer each sub-parcel of transferable papers to the continuing candidate indicated thereon as the voters' next preference.

(4) (*a*) If the total number of transferable papers is greater than the surplus, the Vice-Chancellor shall transfer from each sub-parcel the number of papers which bears the same proportion to the number of papers in the sub-parcel as the surplus bears to the total number of transferable papers.

(*b*) The number of papers to be transferred from each sub-parcel shall be ascertained by multiplying the number of papers in the sub-parcel by the surplus and dividing the result by the total number of transferable papers. Note shall be made of the fractional parts, if any, of each number so ascertained.

(*c*) If, owing to the existence of such fractional parts, the number of papers to be transferred is less than the surplus, so many of those fractional parts taken in the order of their magnitude, beginning with the largest, as are necessary to make the total number of papers to be transferred equal to the surplus, shall be reckoned as of the value of unity, and the remaining fractional parts shall be ignored. If two or more fractional parts are of equal magnitude, that fractional part shall be deemed to be the larger which arises from the larger sub-parcels and if the sub-parcels in question are equal in size, preference shall be given to the candidate who obtained the larger number of original votes.

(*d*) The particular papers to be transferred from each sub-parcel shall be those last filed in the sub-parcel.

(*e*) Each paper transferred shall be marked in such a manner as to indicate the candidate for and to whom the transfer is made.

(5) (*a*) If more than one candidate has a surplus, the largest surplus shall be first dealt with.

(*b*) If two or more candidates have each the same surplus, regard shall be had to the number of original votes obtained by each candidate and the surplus of the candidate credited with the largest number of original votes shall be first dealt with and if the numbers of the original votes are equal, the Vice-Chancellor shall decide which surplus he will first deal with.

(*c*) The Vice-Chancellor need not transfer the surplus of an elected candidate when that surplus together with any other surplus not transferred is less than the difference between the total of the votes credited to the two continuing candidates lowest on the poll.

Statute. 29. (1) If at any time no candidate has a surplus (or when under the preceding statute any existing surplus need not be transferred) and one or more vacancies remain unfilled, the Vice-Chancellor shall exclude from the poll the candidate credited with the lowest number of votes and shall examine all the papers of that candidate, and shall arrange the transferable papers in sub-parcels according to the next preferences recorded thereon for continuing candidates, and shall transfer each sub-parcel to the candidate for whom that preference is recorded.

The Vice-Chancellor shall make a separate sub-parcel of the non-transferable papers.

(2) If the total of the votes of the two or more candidates lowest on the poll, together with any surplus votes not transferred, is less than the votes credited to the next highest candidate, the Vice-Chancellor may in one operation exclude those candidates from the poll and transfer their votes in accordance with the preceding statute.

(3) If, when a candidate has to be excluded under this statute, two or more candidates have each the same number of votes and are lowest on the poll, regard shall be had to the number of original votes credited to each of those candidates and the candidate with fewest original votes shall be excluded and, where the numbers of the original votes are equal, regard shall be had to the total number of votes credited to those candidates at the first transfer at which they had an unequal number of votes, and the candidate with the lowest number of votes at that transfer shall be excluded, and, where the numbers of votes credited to those candidates were equal at all transfers, the Vice-Chancellor shall decide by casting lots which shall be excluded.

Statute. 30. (1) Whenever any transfer is made under any of the preceding statutes, each sub-parcel of papers transferred shall be added to the parcel, if any, of papers of the candidate to whom the transfer is made, and that candidate shall be credited with one vote in respect of each paper transferred. Such papers as are not transferred shall be set aside as finally dealt with and the votes given thereon shall thenceforth not be taken into account.

(2) If after any transfer a candidate has a surplus, that surplus shall be dealt with in accordance with and subject to the provisions contained in statute 28 before any other candidate is excluded.

Statute. 31. (1) When the number of continuing candidates is reduced to the number of vacancies remaining unfilled, the continuing candidates shall be elected.

(2) When only one vacancy remains unfilled, and the votes of some one continuing candidate exceed the total of all the votes of the other continuing candidates together with any surplus not transferred, that candidate shall be elected.

(3) When the last vacancies can be filled under this statute, no further transfer of votes need be made.

Statute. 32. The Vice-Chancellor shall then declare the names of the candidates who have been duly elected.

Statute. 33. Any candidate or his agent may at any time during the counting of the votes, either before the commencement or after the completion of any transfer of votes (whether surplus or otherwise), request the Vice-Chancellor to re-examine and recount the papers of all or any candidates (not being papers set aside as finally dealt with) and the Vice-Chancellor shall forthwith re-examine and recount the same accordingly. The Vice-Chancellor may also at his discretion recount votes either once or more often in any case in which he is not satisfied as to the accuracy of any previous count: Provided that nothing herein shall make it obligatory on the Vice-Chancellor to recount the same votes more than once.

Statute. 34. In the above statutes—

(1) "continuing candidate" means any candidate not elected and not excluded from the poll;

(2) "first preference" means the figure "1" "second preference" means the figure "2" and "third preference" means the figure "3" set opposite the name of any candidate, and so on;

(3) "transferable paper" means a voting paper on which a second or subsequent preference is recorded for a continuing candidate;

(4) "non-transferable paper" means a voting paper on which no second or subsequent preference is recorded for a continuing candidate:

Provided that a paper shall be deemed to be a non-transferable paper in any case in which

(a) the names of two or more candidates (whether continuing or not) are marked with the same figure and are next in order of preference, or

(b) the name of the candidate next in order of preference (whether continuing or not) is marked

(1) by a figure not following consecutively after some other figure on the voting paper; or

(2) by two or more figures:

(5) "original vote" in regard to any candidate means a vote derived from a voting paper on which a first preference is recorded for that candidate;

(6) "transferred vote" in regard to any candidate means a vote derived from a voting paper on which a second or subsequent preference is recorded for that candidate;

(7) "surplus" means the number of votes by which the total number of the votes, original and transferred, credited to any candidate exceeds the quota.

Statute 35. The Vice-Chancellor shall prepare a form showing—

(1) the number of electors who voted,

(2) the number of voting papers rejected,

(a) as being received too late,

(b) for being sent by ordinary post or in other than the prescribed ways,

(c) for irregularities connected with the declaration,

(d) as invalid.

INSTRUCTIONS TO CANDIDATES APPEARING FOR THE EXAMINATIONS TO BE HELD IN SEPTEMBER AND OCTOBER 1924.

Candidates for University Examinations are required to observe the following instructions very carefully :—

1. Strict silence should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for giving out the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to each paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out ; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. **Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners ; should they do so, their answers will not be valued, and their conduct will be reported to the Syndicate for disciplinary action.**

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, manuscript or paper of any description, from communicating with or copying from each other, and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be sent out of the room forthwith, and his conduct will be reported to the Registrar. The use of stencils at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments whilst answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates in groups (i) and (ii) of the Intermediate, B.A., B.Sc. (Agr.) and B.Sc. Degree examinations.

9. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink-bottles. They must, however, use only black ink while answering their question papers.

10. Particular attention is requested to the instructions regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Papers must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

11. As soon as candidates have finished writing their answers and wish to give up their answer books, or at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has gone up to him and has received his answer book from him.

12. Communications to the Registrar from candidates requesting information relating to the results of examinations will not receive attention on and after the publication of the results in the *Fort St. George Gazette*. Success or failure, however, will be communicated by telegraph, if prepaid.

The hall tickets of candidates sitting for the examinations at Madras will be ready for distribution at the Senate House four days before the date of each examination. Candidates sitting for the examinations at centres other than Madras should apply to the Chief Superintendents of the respective centres for their hall tickets.

The Standard Barometer and Thermometers are read at 8 a.m., 10 a.m., 1 p.m. and 4 p.m. and the daily means are obtained by the application of hourly corrections, deduced from twenty years' observations. The cistern of the Barometer is twenty-two feet above the level of the sea, and the receiver of the rain-gauge is two feet from the ground. The wind, rain and general weather registered are for the current Civil Day—from midnight to midnight.

The total quantity of rain collected since January 1st = 3·30 inches, the average due for the same period being 5·33 inches.

REVIEW OF THE SEA-BORNE TRADE

OF THE

MADRAS PRESIDENCY

FOR THE YEAR 1923-24.

REVIEW OF THE SEA-BORNE TRADE OF THE MADRAS PRESIDENCY FOR THE YEAR 1923–24.

INTRODUCTION.

In the last year's review hopes were expressed of a general revival of trade in 1923–24 if some sort of stability in exchange could be effected. Adjustment to normal conditions is proceeding slowly and steadily, but this has been partially arrested by the unsettled and obscure political affairs on the Continent. The depression in Europe generally restricted India's outlet for produce and in turn diminished her purchasing power. The slow recovery of the trade and the fall in prices of the imported articles resulted in a decline under import values. The volume of the export trade has continued to expand under the stimulus of high prices in the consuming countries especially towards the close of 1923. The exchange was steady round 1s 4d during the first six months of the year. In October it started on an upward career and on the 4th December reached 1s 5¼d (the top rate) subsequently declining to 1s 4⅝d. The German mark practically passed out of commerce. The outlook is still far from bright, but it appears likely that the situation will improve in the current year.

1. General Summary.—The following table summarises the value of the sea-borne trade, both foreign and coasting, inclusive of Government transactions, for the year ending 31st March 1924, compared with the value for the two previous years and the pre-war year :—

The aggregate value of the sea-borne trade of the Madras Presidency Rs. 89·06 crores and showed an increase of Rs. 8·08 crores or 10 per cent as compared with that of the previous year, and of Rs. 30·90 crores or 53 per cent as compared with that of 1913–14. Excluding Government transactions, which showed an increase of Rs. 1·38 lakhs, the value of the trade was Rs. 88·30 crores, a figure Rs. 8·06 crores or 10 per cent higher than that of the previous year. The total value of the *foreign trade in private merchandise* increased by Rs. 5·65 crores or 11 per cent as compared with 1922–23 and by Rs. 12·53 crores or 29 per cent as compared with 1913–14. *Imports*, valued at Rs. 19·23 crores, were Rs. 2·88 crores higher than 1913–14 but were 1·06 crores or 5 per cent less than 1922–23. The decrease was due to smaller receipts of railway materials, machinery, metals, instruments, raw silk and precious stones, the chief items showing increases being tobacco, mineral oils, drugs and medicines, cotton manufactures, sugar, motor-vehicles, provisions and raw hides and skins. *Exports* amounted to Rs. 35·59 crores as compared with Rs. 28·89 crores in the previous year, an increase of Rs. 6·71 crores or 23 per cent. When compared with 1913–14 the figure showed an increase of 37 per cent. The increase over the previous year's figure was the net result of heavier shipments of raw cotton, tea, leather, sugar, grain and pulse, coffee, raw rubber, cotton manufactures, tobacco and raw hides and skins partly set off by smaller shipments of seeds, postal articles and spices.

Details of movements of treasure are shown in paragraph 55 below. *Imports* of treasure amounted to Rs. 81·59 lakhs as against Rs. 22·94 lakhs. *Exports* of treasure were valued at Rs. 31·45 lakhs as compared with Rs. 2·31 lakhs in 1922–23.

The *coasting trade in private merchandise* rose from Rs. 30·81 crores to Rs. 32·31 crores or by 5 per cent. *Imports* advanced from Rs. 19·17 crores to Rs. 20·48 crores or by 7 per cent as the net result of larger arrivals of grain and pulse from Sind, Bengal and Bombay, mineral oils from Burma and salt, cotton twist and yarn and cotton piece-goods from Bombay, partly set off by smaller receipts of grain and pulse from Burma and coal from Bengal. *Exports* went up from Rs. 11·64 crores to Rs. 11·83 crores or by 2 per cent, larger shipments of cotton twist to Bengal and tobacco to Burma having been partly counterbalanced by smaller despatches of groundnut oil to Burma and raw cotton to Bombay.

2. Balance of foreign sea-borne trade.—The following table shows the balance of foreign sea-borne trade in merchandise and treasure during the past four years and during the year 1913–14:—

3. Customs duty.—The following table shows the gross and net sea customs revenue, inclusive of the duty on imported salt, realized in the Madras Presidency:—

Total, Net duty ..	83,15,833	2,90,13,531	2,92,52,554	+ 2,39,723

The total customs duty collected was Rs. 295·82 lakhs, an increase over previous year of Rs. 0·60 lakh or 0·2 per cent. The amount of import duty realized increased from Rs. 283·79 lakhs to Rs. 281·68 lakhs or by 0·8 per cent. There were larger receipts under tobacco (+Rs. 23·96 lakhs), articles of food and drink (+Rs. 1·03 lakhs), and manufactured articles (+Rs. 4·42 lakhs), but they were partly counterbalanced by smaller receipts under railway plant and rolling stock (—Rs. 12·65 lakhs), iron and steel (—Rs. 4·21 lakhs), spirits and liqueurs (—Rs. 3·74 lakhs), sugar (—Rs. 3 lakhs), raw materials (—Rs. 1·87 lakhs) and cutlery, hardware, etc. (—Rs. 1·78 lakhs). The fall of receipts under railway materials was due partly to reduced imports and partly to the treatment of stores imported by railway companies working State lines as 'Government stores' passed free of duty since November 1923. The decline under sugar is attributable to reduced tariff valuations with effect from January 1923.

4. Standard price level.—The following table shows the variation in the average prices of the more important articles of commerce. The mean taken for the years 1898–99, 1899–1900 and 1900–01 has been taken as the standard price level, viz., 100—

Imports.—The increase under group I was due to larger receipts of provisions, spices, sugar and tobacco. Smaller arrivals of metals, machinery, railway materials and instruments, partly set off by larger imports of cotton manufactures, motor vehicles, drugs and medicines, glassware, paper and apparel resulted in a decrease under group III. Foreign Trade.

Exports.—Increased despatches of tea, coffee, grain and pulse, sugar and tobacco were responsible for an increase under group I. The increase under group II was contributed by raw cotton, raw hides and skins, raw rubber and manures, while shipments of seeds showed a decline. Larger consignments of leather and cotton manufactures increased the figure under group III.

I.—FOOD, DRINK AND TOBACCO.

The total value under the head improved from Rs. 188·28 lakhs to Rs 220·75 lakhs.

7. **Coffee.**—Imports declined from 19,764 cwt. valued at Rs. 9·34 lakhs to 16,653 cwt. valued at Rs. 7·40 lakhs due to smaller arrivals of cheap coffee from Ceylon partly to the prosperity of the local industry and partly to financial difficulties.

Imports of *liquors* improved by 17 per cent in gallonage as compared with the previous year while the value declined by 8 per cent. The trade in *ale, beer and porter* amounted to 143,786 gallons, an increase of 26 per cent. Supplies from the United Kingdom amounted to 87,872 gallons. Arrivals of German beer have nearly doubled from 25,940 gallons in 1922-23 to 50,215 gallons and have completely excluded the light Japanese beer from the market.

The decrease under *whisky* was due to smaller receipts from the United Kingdom which fell from 48,142 gallons to 41,573 gallons owing to high prices of the article and to larger consumption of cheap Dutch and German spirits. There was an increase of 5,836 gallons or 25 per cent in the quantity of *brandy* imported while the value declined by 10 per cent. This was due to larger arrivals of low priced brandies from France and Germany rising from 18,716 and 1,462 gallons in 1922-23 to 24,157 and 1,745 gallons, while the imports from the United Kingdom declined from 2,565 gallons to 743 gallons, facts which were probably influenced by the fall in the franc and mark exchange rates. The increase under 'other sorts of spirit' was due to larger arrivals of rectified spirit from Java which rose from 5,317 gallons to 12,248 gallons, of which 4,063 gallons were denatured at the Madras Custom House. Imports of *gin* also rose from 7,858 gallons to 9,704 gallons while those of *Colombo arrack* fell off from 13,581 gallons to 13,215 gallons.

Imports of *wines* amounted to 29,370 gallons as against 22,917 gallons and the increase is attributable to larger arrivals of port and other still red wines and vermouth.

9. Provisions and oilman's stores.—There was an improvement of Rs. 4·83 lakhs to Rs. 34·33 lakhs in the value of imports under this head. Farinaceous and patent foods expanded from Rs. 11·22 lakhs to Rs. 15·72 lakhs, canned and bottled provisions from Rs. 3·76 lakhs to Rs 3·99 lakhs and biscuits and cakes from Rs. 2·88 lakhs to Rs. 3·18 lakhs while condensed milk slightly declined from Rs. 5·45 lakhs to Rs. 5·25 lakhs. The share of the United Kingdom has been improving steadily and amounted to Rs. 18·01 lakhs as against 15·74 lakhs in the previous year. The share of the Straits Settlements, consisting mostly of sago and sago flour, and that of the United States of America slightly improved from Rs. 6·57 and Rs. 2·11 lakhs respectively to Rs. 7·16 and Rs. 2·67 lakhs.

10. Spices.—The total value of the imports of spices expanded from Rs. 58·06 lakhs to Rs. 58·53 lakhs. *Betelnuts*, as usual, formed the bulk of imports under this

head and amounted to 260,671 cwt. valued at Rs. 58·65 lakhs as against 226,719 cwt. valued at Rs. 51·41 lakhs. The Straits Settlements supplied 52 per cent of the quantity and Ceylon the remainder. **Foreign Imports.**

There was not much variation in the imports of *refined sugar*, the quantity having increased by only 3 per cent and the value by 9 per cent as compared with the previous year. The supplies were mostly of Java origin and the average declared value rose from Rs. 413 to Rs 439 per ton as a result of large demand for Java sugar in European countries. Direct imports from Java improved from 8,642 tons to 9,196 tons, while imports via Ceylon and the Straits Settlements declined from 626 to 557 tons. Supplies from Mauritius ceased during the year under review. Coast-wise imports of refined sugar from Calcutta, Bombay and Karachi amounted to 11,045 tons as against 11,314 tons in the previous year. The local price of white Java sugar which was Rs. 54 per bag of 2 cwt. at the beginning of April 1926, rose to Rs. 60 at the end of May, but declined to Rs. 42-8-0 at the end of August on the arrival of fresh supplies from Bombay and Java. The prices again rose and touched Rs. 56-10-0 at the beginning of March declining to Rs. 51 at the close of the year. Imports of *unrefined sugar* consisting of glucose or corn syrup from the United States of America amounted to 76 tons. The high prices of local jaggery created large demands for cheap *molasses* from Java (for distillery purposes), imports of which rose from 250 tons to 2,280 tons.

12. Tobacco—The total imports were 3·43 million lb. valued at Rs. 49 51 lakhs as against 1·04 million lb. valued at Rs 27·65 lakhs. Imports of *unmanufactured tobacco* have increased from 0·74 million lb to 3·11 million lb., of which 2·68 million lb. came from the United States as against 0·68 million lb. There has been a large expansion in the manufacture of cigarettes in Southern India, especially in the Bangalore factory, from imported leaf Imports from the United Kingdom and the Netherlands also improved from 8,381 lb. and 48,960 lb. to 353,535 lb. and 70,357 lb. There was a further increase in the imports of foreign cigarettes from 278,334 lb. to 296,516 lb. as a result of larger arrivals of high class cigarettes from the United Kingdom.

Foreign Imports.

II.—RAW MATERIALS AND PRODUCE AND ARTICLES MAINLY UNMANUFACTURED.

The total value under this head increased from Rs. 186·21 lakhs to Rs. 188·09 lakhs.

13. Coal.—In spite of the fall in the price of Bengal coal and increased transhipment facilities the imports of foreign coal rose from 57,564 tons to 67,203 tons in quantity while the value declined from Rs. 19·76 lakhs to 19·54 lakhs. This is attributable to a similar reduction in the price of the foreign coal the qualities of which were better than Indian coal. The chief sources of supply were Natal (27,415 tons), the United Kingdom (14,468 tons), Portuguese East Africa (13,914 tons) and New South Wales (11,411 tons). Imports of Indian coal from Calcutta amounted to 207,781 tons as against 330,927 tons in 1922–23.

14. Oils.—Imports of foreign *mineral oils* rose from 13·01 million gallons to 16·81 million gallons or 29 per cent in quantity and from Rs. 91·97 lakhs to Rs. 109·80 lakhs or 19 per cent in value. Nearly 60 per cent of the imports consisted of *kerosene oil* which rose from 6·53 million gallons to 10 million gallons, of which 8·32 million gallons represented bulk oil and the rest case oil. The value rose from Rs. 57·09 lakhs to Rs. 76·65 lakhs. The increase was due to larger consumption stimulated by a fall in price, the average cost having fallen from As. 14 to As. 13 per gallon. Imports from the United States of America improved from 6·53 million gallons to 8·20 million gallons and those from the Straits Settlements, whose supply was stopped during the previous two years, amounted to 1·80 million gallons. Imports of *Burma oil* rose from 24·74 million gallons to 27·28 million gallons. Supplies of *fuel oils* increased from 5·36 million gallons to 5·72 million gallons due to expansion in the bunkering of vessels with liquid fuel. Persia sent 3·74 million gallons and the Straits Settlements 1·98 million gallons as against 1·81 and 3·54 million gallons in the previous year. Imports of foreign *lubricating oils* chiefly from America did not show much variation and amounted to 1·96 million gallons. Coastwise imports consisting of light oils mainly from Burma declined from 377,713 gallons to 364,409 gallons. *Petrol* is wholly supplied from Burma whose despatches amounted to 3,379,091 gallons as against 2,736,194 gallons.

15. Textile materials.—The trade in *raw silk* mainly from China declined from 345,550 lb. to 278,452 lb. in quantity and from Rs. 37·28 lakhs to Rs. 28·41 lakhs in value. The decrease was due to the general trade depression and tightness of the money market resulting in accumulation of stocks and fall in prices.

III.—ARTICLES WHOLLY OR MAINLY MANUFACTURED.

The total value under this head decreased from Rs. 1,627·73 lakhs to Rs. 1,489·20 lakhs.

16. Apparel.—Imports increased from Rs. 19·27 lakhs to Rs. 22·22 lakhs. The increase is chiefly noticeable under *gold and silver thread*, the value of which rose from Rs. 12·34 lakhs to Rs. 14·71 lakhs, Rs. 2·64 lakhs worth coming from France and Rs. 12·06 lakhs from Ceylon. The last figure represents imports by post which were despatched from France via Ceylon. The heaviest imports after the war were in 1920–21, when the value stood at Rs. 36·47 lakhs; since then the trade began to languish owing to the gradual enhancement in the rate of duty and the figures during the last two years were made up mainly by imports by post, which have been included with imports by sea since April 1923. Authorized imports of gold thread by land via Pondicherry amounted to Rs. 1·87 lakhs as against Rs. 3·26 lakhs in the previous year. There is reason to suppose that this commodity is extensively smuggled across the land frontier. Imports of *lametta* improved from Rs. 2·12 lakhs to Rs. 3·24 lakhs, while those of apparel proper slightly declined from Rs. 2·69 lakhs to Rs. 2·59 lakhs.

17. Chemicals, drugs and medicines.—The total value of *chemicals* declined from Rs. 22·35 lakhs to Rs. 20·89 lakhs; reduced receipts of caustic soda, cyanide of sodium and sodium carbonate from the United Kingdom were the main items contributing to this result.

Imports of *drugs and medicines* improved from Rs. 14·97 lakhs to Rs. 23·28 lakhs. Imports of *camphor* amounted to 377,310 lb. valued at Rs. 11·97 lakhs as

against 217,663 lb. valued at Rs. 3·66 lakhs, Japan being the chief source of supply. Owing to the reduction in price in Japan large orders were placed by merchants and the market is at present overstocked. Foreign Imports

18. Cutlery, hardware, implements and instruments.—Imports of *cutlery* amounted to Rs. 1·05 lakhs as compared with Rs. 1·15 lakhs in the previous year. The total value of imports of *hardware* fell off from Rs. 48·42 lakhs to Rs. 45·65 lakhs The share of the United Kingdom declined from Rs. 31·43 lakhs to Rs 25 78 lakhs, while Germany increased her share from Rs. 7·41 lakhs to Rs. 10·59 lakhs The United States of America supplied Rs. 5·16 lakhs worth as against Rs. 4·40 lakhs. Implements and tools declined by Rs. 3·14 lakhs to Rs. 8·82 lakhs and the composite head 'other sorts' by Rs. 4·04 lakhs, while enamelled ware and lampware increased from Rs. 1·07 and Rs. 5·32 lakhs to Rs. 3·63 and Rs. 6·40 lakhs, respectively, owing to larger receipts from Germany. Imports of *instruments and apparatus* further declined from Rs. 24·37 lakhs to Rs. 16·98 lakhs as a result of the falling off in purchases of electrical instruments from Rs 16·56 lakhs to Rs. 8·81 lakhs owing probably to completion of import in connexion with the inception of special electrical projects.

19. Dyes and colours.—The total imports of dyeing and tanning substances improved from Rs. 23·23 lakhs to Rs. 25 05 lakhs. *Alizarine* and *aniline* are the most important articles under this head. Imports of *alizarine* amounted to 1,302,397 lb. valued at Rs. 12·26 lakhs as compared with 1,400,029 lb. valued at Rs. 13·59 lakhs. Shipments of alizarine from German sources were very limited during the first six months of the year under review. This gave an impetus to the imports from the United Kingdom whence shipments increased by nearly 60 per cent but failed to make up the deficit. The average price of alizarine was the same as in the previous year, namely, As. 15 per lb. Imports of *aniline* expanded from 324,511 lb. to 424,540 lb. in quantity and from Rs. 3·31 lakhs to Rs. 11·24 lakhs in value. Increased shipments of dry aniline could be made from Germany from large accumulated stocks from the factories. The average price of aniline rose from Rs. 2–9–0 to Rs. 2–10–0 per lb.

The following statement shows the sources of supply of the two dyes during the past two years and the year 1913–14 :—

The fall in the imports of aniline from the United Kingdom is evidently due to German competition. Imports of *paints* and *painters' materials* increased from Rs. 11·06 lakhs to Rs. 11·96 lakhs, larger supplies having arrived from the United Kingdom.

20. Glassware and earthenware.—The import trade under *glassware* showed an increase of Rs. 3·22 lakhs to Rs. 22·25 lakhs and the increase was most marked under glass bangles which rose from Rs. 3·21 lakhs to Rs 6 57 lakhs, Germany supplying Rs. 3·41 lakhs worth and Austria Rs. 2·28 lakhs worth. Imports of glass-beads and false pearls were valued at Rs. 3 93 lakhs and those of glass parts of lamps at Rs. 2·40 lakhs, Germany being the chief source of supply. Supplies of bottles and phials to the extent of Rs. 4·34 lakhs were contributed by the United Kingdom, Germany and Japan. Belgium and the United Kingdom sent sheet and plate glass to the value of Rs. 3·31 lakhs. Of the total imports of glassware 14 per cent came from Germany. Imports of *earthenware* increased from Rs. 5·11 lakhs to Rs. 6·13 lakhs, the United Kingdom being the chief source of supply.

The total value of imports under this head declined by Rs. 44·40 lakhs or 19 per cent. The decrease is most noticeable under textile machinery and is due to smaller demand for cotton spinning and weaving machinery and jute machinery. The increase under prime-movers was the result of larger receipts of oil and steam engines. The prosperity of the tea industry accounts for the increased value under tea machinery. The United Kingdom still maintains her position as the chief supplier of machinery, her share being 80 per cent, the United States coming next with 6 per cent.

Imports of iron and steel declined by 10 per cent both in quantity and value. The decrease occurred mainly under iron and steel bars and channel and pipes and tubes. The decrease under bars and channel is attributable to smaller supplies from Belgium and Germany owing to the occupation of the Ruhr district by the French and constant fluctuations in exchange causing unsteady prices. Imports of bar iron of Pondicherry manufacture amounted to 3,476 tons valued at Rs. 4·78 lakhs as against 1,687 tons valued at Rs. 2·73 lakhs. Smaller supplies of pipes and tubes from the United Kingdom were probably due to the cessation of the demand in connection with special projects. The only noticeable increase was under beams, pillars, etc., from the United Kingdom and this may be ascribed to a bigger demand

for building purposes owing to a fall in manufacturers' prices. The average prices of iron bars and channel and steel bars and channel declined from Rs. 199 and 170 to Rs. 189 and 151. The following statement shows the origin of our supplies by countries :— Foreign Imports.

Belgium was still the chief supplier of iron and steel and its competition with the United Kingdom was very keen; an inspection of the figures will indicate that the value per ton of the supplies from the United Kingdom was largely in excess of that for Belgian iron and steel.

Under *brass*, imports of mixed or yellow metal increased by 16 per cent in quantity and 2 per cent in value. Imports from Germany increased from 5,222 cwt. to 32,154 cwt., while those from the United Kingdom declined from 64,477 cwt. to 48,117 cwt. This is due to the fact that German sheets are cheaper by at least £1 per ton than British sheets and the quality of first-class German sheets is considered equal to that of the British sheets. The opening and closing prices of the year for British yellow metal sheets were Rs. 305 and 300 per candy of 500 lb. as against Rs. 335 and 306 in the previous year. Smaller supplies of tubes, ingots and wire were chiefly responsible for a fall of Rs. 4·64 lakhs under *copper*. Imports of *aluminium* amounted to 2,134 cwt. valued at Rs. 11·81 lakhs as against 8,045 cwt. valued at Rs. 7·12 lakhs and surpassed the figures of pre-war average. The increase was due to the popularity of aluminium vessels for domestic use. The chief sources of supply were the United Kingdom (Rs. 5·44 lakhs), Switzerland (Rs. 2·60 lakhs), Belgium (Rs. 2·36 lakhs) and Germany (Rs. 0·81 lakh).

Foreign Imports.

24. Paper, pasteboard and stationery.—Imports of *paper* and *pasteboard* expanded from Rs 47·02 lakhs to Rs 50·61 lakhs. A considerable drop in the price of German paper and consequent speculation led to larger imports from that source from Rs. 1·91 lakhs to Rs. 7·61 lakhs, while arrivals from the United Kingdom and from Norway and Sweden together declined from Rs. 30·47 and Rs. 8·10 lakhs to Rs. 29·87 and Rs. 6·65 lakhs. Imports of packing paper, paper manufactures and pasteboard showed increases while printing paper, writing paper and other kinds of paper declined.

25. Railway plant and rolling-stock.—There was a further decrease of Rs. 102·27 lakhs (from Rs. 216·01 lakhs to Rs. 113·74 lakhs) in the imports under this head. There were considerable stocks available from previous years' purchases for railway requirements and large orders were also placed in India for supply of certain railway materials of iron and steel manufactured in India. Hence foreign imports were curtailed. Imports of carriages and wagons declined by Rs. 19·62 lakhs, locomotive engines and tenders by Rs. 5·29 lakhs and construction materials by Rs. 77·36 lakhs. Of the total imports, the United Kingdom contributed 94 per cent and Western Australia 3 per cent, the last representing railway sleepers.

The total value of *cotton goods* exhibited in the above statement represented 25 per cent of the total foreign import trade. There was a slight increase under cotton piece-goods, while cotton twist and yarn showed a decrease.

Cotton piece-goods showed an expansion of 8 per cent in yardage and one per cent in value as compared with the figures of the previous year. This was the net result of increases under white and coloured piece-goods partly counterbalanced by a decrease under grey goods. The year under review began with large stocks especially under grey goods and at the end of April prices were steady in sympathy with the firm tone of the Manchester market. Since then there have been satisfactory clearances on account of up-country demands, but at the end of June fluctuations in cotton prices and the uncertainty consequent thereon proved a hindrance to forward business. November saw some slight improvement and prices rose due to speculation in the local market brought about by the enhanced prices quoted by Lancashire for replacements. Towards the close of the year a little more interest was shown in forward

business but with a firm Manchester market and declining exchange orders were only booked with difficulty. Under improved conditions with a set-back in the non-co-operation movement the general trend of trade was more towards finer cloths. **Foreign Imports.**

There was a decline of Rs. 18·43 lakhs or 11 per cent under *grey goods* brought about by smaller arrivals of longcloth and shirtings by Rs. 24·51 lakhs, while jaconets including madapollams, mulls and cambrics improved by Rs. 5·95 lakhs, and dhotis, saris and scarves by Rs. 1·91 lakhs. The decrease under longcloth and shirtings is attributable to competition by Indian mills which are now able to produce this class of goods at a price with which Lancashire cannot compete. The increase under jaconets, etc., was principally under grey mulls; the demand has been much better for these fine yarn Egyptian styles when the prices of Egyptian cotton were lower than American cotton. Increased arrivals of mulls by Rs. 21·08 lakhs followed by decreased receipts under nainsooks by Rs. 5·01 lakhs resulted in a net increase of Rs. 16·73 lakhs under *white goods*. The fine mulls which cannot be manufactured locally have been more popular than cheap nainsooks. The increase of Rs. 7·06 lakhs under coloured goods was accounted for by larger receipts of saris and scarves partly owing to depletion of stocks and partly to lower prices ruling for these goods; cambrics declined by Rs. 2·55 lakhs.

Imports of *cotton twist and yarn* declined by 18 per cent in quantity and one per cent in value, the average declared value having risen from Rs. 2 to Rs. 2–5–0 per lb. Under grey yarn, the common counts 31 to 40 decreased by 79 per cent in quantity while counts above 50 increased by 50 per cent. The decrease under the lower counts was due to the competition of Indian mills, which are now turning their attention in a greater measure to counts between 31 and 40, and to imports by rail of Japanese yarn from other parts of India. The increase under counts above 50 was due to the improved conditions generally resulting in the wearing of fine cloths woven from imported fine yarn in which the English spinners meet with little competition either from Japan or Indian mills. The failure of the non-co-operation movement in this Presidency may also have had some effect on the trade of these fine counts. Under coloured yarns there was an increase of 15 per cent; this is attributable to larger production of woven saris and other coloured goods in the country. Prices of imported dyed yarn have been cheaper during the year and this has checked to a certain extent the amount of country dyeing of imported grey yarn. The increase of 63 per cent in the imports of bleached yarn was due to the prices being somewhat lower.

The United Kingdom supplied 98 per cent of cotton goods imported.

Haberdashery.—Imports declined from Rs. 4·33 lakhs to Rs. 3·11 lakhs, the United Kingdom being the chief source of supply.

Jute and wool.—Imports of *jute manufactures* consisting chiefly of used gunny bags re-imported from Ceylon expanded from Rs. 9·43 lakhs to Rs. 10·75 lakhs. Imports of *woollen goods* improved from Rs. 3·48 lakhs to Rs. 5·79 lakhs in consequence of larger supplies of piece-goods from the United Kingdom.

27. Vehicles (excluding locomotives, etc., for railways).—Imports of *cycles and accessories* improved from Rs. 6·37 lakhs to Rs. 6·80 lakhs, 8,515 cycles having been received chiefly from the United Kingdom as against 2,734 cycles in the previous year. The total value of motor vehicles imported rose from Rs. 31·85 lakhs to Rs. 37·13 lakhs. The number of *motor cars* increased from 791 to 1,152 of which 552 were from Canada, 481 from the United States and 97 from the United Kingdom as against 481, 237 and 54 in 1922–23. The average prices per car from Canada, the United States and the United Kingdom declined from Rs. 1,928, 3,048 and 6,670 to Rs. 1,627, 2,411 and 3,107 respectively. The number of *motor cycles* declined from 156 to 148, of which 95 were of British manufacture, 27 American and 11 German. There was an improvement in the number of *motor lorries* imported from 112 to 265, of which 173 came from Canada, 84 from the United States and 8 from the United Kingdom.

28. Minor items.—Imports of *arms and ammunition* improved from Rs. 9·32 lakhs to Rs. 9·92 lakhs as a result of larger receipts of explosives from the United Kingdom. Under building materials, imports of *cement* (chiefly Portland cement from the United Kingdom) improved from 18,509 tons to 21,337 tons in volume, while the value declined from Rs. 14·69 lakhs to Rs. 14·69 lakhs, the average value having fallen from Rs. 80 to Rs. 70 per ton. There was an increase of Rs. 4·33 lakhs

Foreign Imports. in the imports of *raw hides and skins* due to new receipts from Egypt. Imports of *matches* declined from Rs. 14·61 lakhs to Rs. 12·88 lakhs, of which Rs. 11·52 lakhs represented the value of safety matches. Sweden supplied to the extent of Rs. 0·54 lakhs and Japan 5·49 lakhs as against Rs. 7·30 and 6 lakhs. The value of *paints and painters' materials* imported increased from Rs. 11·07 lakhs to Rs. 12·96 lakhs, the United Kingdom being the chief source of supply. Imports of *precious stones* declined from Rs. 13·55 lakhs to Rs. 6·28 lakhs. There was a slight decrease in the arrivals of *rubber manufactures* from Rs. 24·03 lakhs to Rs. 23·75 lakhs. Motor tyres and tubes declined from Rs. 19·42 lakhs to Rs. 18·40 lakhs, while other manufactures rose from Rs. 4·61 lakhs to Rs. 5·35 lakhs. The value of *soap* improved from Rs. 9·53 lakhs to Rs. 12·36 lakhs owing to larger purchases of household soaps from the United Kingdom. Imports of *tea-chests* rose from Rs. 8·88 lakhs to Rs. 10·25 lakhs, the United Kingdom supplying almost the whole. The increase is attributable to a more satisfactory position of the tea market

29. Imports of *living animals* declined from Rs. 2·96 lakhs to Rs. 0·64 lakh as no horses were received from Victoria during the year under review.

V.—POSTAL ARTICLES NOT SPECIFIED.

30. Imports of postal articles, not specified, increased from Rs. 23·43 lakhs to Rs. 24·55 lakhs to which the United Kingdom contributed Rs. 11·60 lakhs, Ceylon Rs. 6·46 lakhs, Japan Rs. 3·04 lakhs and the Straits Settlements Rs. 1·24 lakhs.

I.—FOOD, DRINK AND TOBACCO.

Foreign Exports.

The total value under the head expanded from Rs. 609·50 lakhs to Rs. 851·80 lakhs.

32. Coffee.—The bumper crop of 1922–23 was abnormally late and the small crop of 1923–24 was earlier than usual. The exports consisting of these two crops rose from 162,045 cwt. to 208,885 cwt. or by 28 per cent in quantity and from Rs. 119·63 lakhs to Rs. 152·59 lakhs or by 27 per cent in value, the demand from the European countries being very large. Towards the close of the year the price of plantation coffee ranged from Rs. 75 to Rs. 78 per cwt. as compared with Rs. 62 to Rs. 67 in the previous year. The principal customers for Indian coffee are the United Kingdom and France. Shipments to the United Kingdom, which is a distributing centre for continental markets, increased from 65,878 cwt. to 72,830 cwt. (the price in London being favourable to shippers) and those to France from 60,346 cwt. to 63,066 cwt. The other principal countries participating in the increase were the Netherlands (13,760 cwt.), Germany (9,520 cwt.), Italy (4,377 cwt.) and Belgium (3,275 cwt.). Shipments to Norway, Bahrein Islands and Australia were down by 4,322, 2,866 and 1,089 cwt.

33. Fruits and vegetables.—The total value rose from Rs. 43·72 lakhs to Rs. 50·15 lakhs. Of fresh vegetables, *onions* shipped to Ceylon, the Straits Settlements and the Federated Malay States amounted to Rs. 29·50 lakhs, and others (mostly potatoes) were Rs. 6 lakhs. The value of dried and preserved fruits consisting mainly of tamarind to the Straits Settlements, Ceylon, Persian Gulf ports and Italy and cashewnuts to France and the United States amounted to Rs. 14·50 lakhs.

Paddy and rice are the chief items under this head. Exports of *paddy* amounted to 6,184 cwt. valued at Rs. 6·32 lakhs. Exports of *rice* increased by 40 per cent in quantity and 30 per cent in value. The quantity (71,357 tons) was still less than half the quantity shipped during the pre-war year 1913–14, and the increase as compared with the previous year was due to a fall in price which stimulated larger demand from Ceylon for Madras rice of good quality although Calcutta and Burma have been the chief supplies to Ceylon during recent years.

Exports of *spices* declined by 32 per cent in quantity and 23 per cent in value. The decrease under *pepper* was due to smaller shipments to Italy from Rs. 11·14 lakhs to Rs. 6·07 lakhs. The pepper crop was low as compared with the previous year and the price, which is very largely governed by the Straits pepper, was also low. Shipments of *chillies* declined by nearly 50 per cent in value and amounted to Rs. 14·93 lakhs to which Ceylon contributed Rs. 9·44 lakhs and the Straits Settlements Rs. 3·13 as against Rs. 20·19 lakhs and Rs. 6·27 lakhs in the previous year. The local price of chillies was higher as compared with Calcutta and it is probable that more supplies were obtained from Calcutta by the consuming countries. Exports of *ginger* declined by 2,121 cwt. in quantity, while the value rose by Rs. 2·71 lakhs owing to advanced prices. The value of shipments to the United Kingdom and the United States rose from Rs. 2·64 and Rs. 2·51 lakhs to Rs. 5·07 and Rs. 3·95 lakhs. Exports of *cardamoms* amounted to Rs. 2·27 lakhs, the United Kingdom being the chief consumer.

36. Sugar.—The area under sugarcane cultivation declined by 7 per cent below that of last year and the estimated yield (303,000 tons) was 14 per cent less. But owing to the world shortage of sugar and the high level of prices of sugar generally there was an abnormal demand for Madras sugar, the exports of which rose from 2,946 tons valued at Rs. 6·82 lakhs to 32,482 tons valued at Rs. 78·29 lakhs. More than 90 per cent of sugar was jaggery which amounted to 29,684 tons valued at Rs. 70·07 lakhs as against 2,395 tons valued at Rs. 6·21 lakhs. Of the total quantity exported, 27,950 tons were cane jaggery and the rest palmyra jaggery. The United Kingdom absorbed jaggery to the extent of 27,090 tons as against 227 tons, as jaggery could compete with molasses and other low priced sugars from Mauritius, Ceylon took 2,213 tons. The quantity of brown sugar rose from 476 tons to 2,592 tons, Ceylon and the Straits Settlements being the principal consumers.

37. Tea.—Exports of *tea* rose from 30·32 million lb to 38·56 million lb. or 27 per cent in volume and from Rs. 202·51 lakhs to Rs. 286 99 lakhs or 42 per cent in value, the average value having risen from As. 10–8 to As 11–10 per lb. The increase was due to more favourable weather conditions resulting in much larger crops coupled with larger demand from London on account of depletion of stocks and steady exchange. Shipments to the United Kingdom went up from Rs. 186 53 lakhs to Rs 261·38 lakhs and those to Ceylon, which is a distributing centre for foreign markets, also increased from Rs. 15·41 lakhs to Rs. 28·83 lakhs.

38. Minor items.—Exports of *fish* increased from Rs. 33 16 lakhs to Rs. 42·08 lakhs and consisted chiefly of dried fish and fishmaws to Ceylon and the Straits Settlements. Exports of *tobacco* have more than doubled; the quantity having gone up from 4·43 million lb. to 10·18 million lb. and the value from Rs 19·76 lakhs to Rs. 39·91 lakhs. The trade was mostly in leaf tobacco which amounted to 9·95 million lb. valued at Rs. 37·66 lakhs as compared with 4 25 million lb valued at Rs. 17·69 lakhs. The increase is attributable to the popularity of Guntur tobacco in consuming markets on the Continent and in the United Kingdom. The United

Kingdom imported Rs. 14·38 lakhs worth, the Straits Settlements Rs. 9·48 lakhs, the Federated Malay States Rs. 5·95 lakhs, Germany Rs. 4·62 lakhs and the Netherlands Rs. 2·98 lakhs. Exports of *cigars* rose from 90,244 lb. to 111,541 lb. Foreign Exports

II.—RAW MATERIALS AND PRODUCE AND ARTICLES MAINLY UNMANUFACTURED.

The total value of exports under the head increased from Rs. 1,298·13 lakhs to Rs. 1,651·40 lakhs or 27 per cent.

39. Hides and skins raw.—As usual, the share of this Presidency in the exports of *raw hides* has been trifling; the total exports amounted to only 10 tons valued at Rs. 3,942. Exports of *raw skins* increased from 2,177 tons to 2,812 tons in weight and from Rs. 51·96 lakhs to Rs. 67·63 lakhs in value. Almost the whole of the shipments were goat skins, only 94 tons of sheep skins having been exported. The United States of America and the United Kingdom are the best customers for raw skins and the exports to these countries increased from Rs. 19·53 and 10·75 lakhs to Rs. 23·15 and 12·66 lakhs. Exports to the Netherlands, Germany and Belgium rose from Rs. 3·90, 0·68 and 0·12 lakhs to Rs. 13·12, 2·04 and 1·54 lakhs, the increase to these countries was due to the German demand for tanning purposes owing, it is said, to the partial recovery of Germany's purchasing power. Most of the transactions are through sterling credits in London and Germany's internal economical conditions have been such as to permit of cheapness in manufacture and a consequent underselling of the British market. The increased shipments have been assisted by a reduction of export duty from 15 per cent to 5 per cent in March 1923. The price of goat skins has been constant at Re. 1 per lb. while that of sheep skins fell from As. 10 to As. 8.

40. Oils.—The total value of exports of *oils* declined from Rs. 54·75 lakhs to Rs. 51·56 lakhs. There was a considerable increase in the exports of *animal oils* (principally fish oil) from 106,200 gallons to 1,633,256 gallons in quantity and from Rs. 0·80 lakh to Rs. 11·93 lakhs in value. Owing to the very large demand for fish oil, as a result probably of the failure of Japanese fish crops, prices advanced by 50 to 75 per cent and all available supplies were shipped. The chief consumers were Germany, the United Kingdom and the Netherlands which imported to the extent of Rs. 4·17, 3·57 and 3·68 lakhs. Under essential oils, exports of *lemon grass oil* from South Malabar showed further expansion from 52,921 gallons to 56,846 gallons, France taking 34,590 gallons, the United Kingdom 7,122 gallons and the United States 6,307 gallons. Shipments of *sandalwood oil* from the Mysore factories improved from 6,581 gallons to 7,491 gallons, 80 per cent of which went to the United Kingdom. Under vegetable oils, exports of *castor oil* amounted to 347,623 gallons valued at Rs. 9·70 lakhs as against 420,358 gallons valued at Rs. 10·47 lakhs, the average declared value having risen from Rs. 2–3–0 to Rs. 2–12–0 per gallon. The United Kingdom took 83 per cent of the quantity. Shipments of *cocoanut oil* fell from 806,247 gallons to 152,838 gallons in quantity and from Rs. 19·40 lakhs to Rs. 3·72 lakhs in value, the shares of the United Kingdom and the United States having fallen from Rs. 8·53 and 4·71 lakhs to Rs. 2 and 0·90 lakhs. The heavy decline is attributable to the comparative cheapness of the oil at other sources of supply. Exports coastwise amounted to 4,678,961 gallons valued at Rs. 110·15 lakhs as against 4,932,768 gallons valued at Rs. 105·54 lakhs. Exports of *groundnut oil* amounted to 28,993 gallons as against 35,847 gallons in 1922–23.

41. Raw rubber.—Owing to less restriction in tapping there was larger production of rubber available for export and consequently shipments of raw rubber amounted to 79,642 cwt. valued at Rs. 63·50 lakhs as against 63,035 cwt. valued at Rs. 39·49 lakhs. The shares of the United Kingdom, Ceylon and the United States were 32,578, 31,887 and 14,407 cwt. as against 27,727, 25,654 and 8,352 cwt. in 1922–23. The average price of rubber rose from As. 9 to As. 11–6 per lb.

The total exports of *seeds* declined by 3 per cent both in quantity and value as compared with the previous year and the decline occurred chiefly under copra or coconut kernal.

Groundnuts.—More than 85 per cent of the total trade in seeds consisted of *groundnuts* which also made up over 18 per cent of the total trade of the Presidency. The quantity (274,433 tons) does not show much variation as compared with that of 1922-23 and the value (Rs 625·20 lakhs) declined by 1 per cent; these figures still surpassed those of the pre-war year 1913-14. The area under groundnut cultivation increased by 3 per cent over that of last year, but the estimated yield (675,000 tons) was 18 per cent less owing to the unfavourable agricultural season especially in the northern districts. The local price which ruled at Rs. 67 per French candy f.o.b. for ordinary seed at the beginning of the year declined to Rs. 51-4-0 at the middle of August, but rose to Rs. 69-8-0 by the middle of November. Since then there has been a decline, the closing price of the year being Rs. 62. France, which is the chief customer, took 76 per cent of the total quantity,

on increase of 10 per cent above her previous year's imports. The appropriations of other countries were the Netherlands 6 per cent, the United Kingdom and Germany each 5 per cent, Italy 3 per cent, Belgium and Spain each 2 per cent. Favourable rates of freight and exchange enabled France to secure good supplies of groundnuts. The decrease in the case of Italy is said to have been due to larger supplies from other sources such as Senegal. The decreased shipments to Germany were partly made up by increased exports to the Netherlands in transit to Germany. Exports coastwise considerably declined from 1,261 tons to 385 tons. The total quantity, both foreign and coasting, shipped at the port of Madras was 88,069 tons as compared with 99,075 tons in the previous year, a decrease of 11 per cent. The following statement shows the total shipments of groundnuts from the principal ports of the Presidency :— **Foreign Exports.**

Exports from Pondicherry improved from 39,781 tons to 56,490 tons

Castor seeds.—There was a further demand for *castor* seeds from the United States, Belgium and France for crushing and the exports rose by 11 per cent in quantity, in spite of an outturn reduced by 8 per cent. The opening and closing prices for the year were Rs. 18-12-0 and Rs. 21-8-0 per cwt.

Copra or coconut kernel.—A poor coconut crop and consequent high prices prevailing locally compared with other countries of supply curtailed the exports, which declined by 12 per cent in volume and 28 per cent in value, in which the United Kingdom and the continental countries have shared. The exports coastwise were valued at Rs. 62 40 lakhs as against Rs. 85 17 lakhs.

Sesamum (Gil or Jingili).—Exports were reduced to 91 tons valued at Rs. 0·29 lakh as the poor outturn (52,400 tons) was barely sufficient for local consumption.

The area under cotton in 1922-23 had been increased by 28 per cent above that of the previous year and the yield, which was available for export only in the year under review, amounted to 444,100 bales, an increase of 22 per cent. There were also acute shortage and high prices of American cotton which have caused

Foreign Exports

increased demand in the Far East, the United Kingdom and the continental ports for Indian cotton. Consequently exports increased by 113 per cent in volume and 134 per cent in value. Shipments to Japan, the chief Madras customer, and to the United Kingdom have more than doubled and, those to Italy increased by four times. The appropriations of Belgium, China and Germany rose by 67, 55 and 85 per cent. The price of cotton has considerably increased during the year under review. The spot price of middling American cotton at Liverpool which was 15·2*d.* at the beginning of April 1923 rose to 16·9*d* by the middle of June, but declined to 14*d.* at the beginning of August. It then rose gradually to 22*d* (the highest during the year) at the end of November. Since then there has been a fall, the closing price for the year being 17·3*d.* The average local price *f.o.b.* for cotton Westerns per candy of 500 lb. was Rs. 351 in April 1923 and Rs 382 in March 1924. Exports coastwise chiefly to Bombay decreased from 16,926 tons to 14,244 tons. An analysis of the quantities of the different varieties of cotton exported shows that Tinnevellys, as usual, claimed the largest share (53 per cent), while Northerns and Westerns shipped at the Madras port amounted to 44 per cent. Shipments from Calicut and Cocanada were two and one per cent respectively. The area and outturn of cotton during the year 1923–24, the exportable surplus of which will be available for shipment during the current official year, are given below :—

Hemp, raw.—Exports declined from 1,468 tons to 727 tons and the value from Rs. 4·62 lakhs to Rs. 2·76 lakhs, the United Kingdom and Belgium being the chief consumers.

Jute, raw.—Owing to the failure of the jute crop exports of Bimlipatam jute declined from 2,320 tons valued at Rs. 9·23 lakhs to 747 tons valued at Rs. 2·52 lakhs, the principal consumers being the United Kingdom, Germany and Belgium.

Silk, raw.—Exports of raw silk consisting mostly of waste silk amounted to 427,055 lb. valued at Rs. 3·61 lakhs to which France contributed Rs. 3·15 lakhs. The previous year's figures were 327,886 lb. valued at Rs. 2·48 lakhs.

44. **Minor items.**—*Fibre for brushes and brooms* consisting mostly of palmyra fibre went up from Rs. 16·97 lakhs to Rs. 23·71 lakhs, the chief consumers being Germany (Rs. 4·69 lakhs), Belgium (Rs 4·52 lakhs), the United States (Rs. 4·58 lakhs), the United Kingdom (Rs. 3·96 lakhs), the Netherlands (Rs 2·48 lakhs) and Japan Rs. 2·37 lakhs. Exports of *manures* expanded from Rs. 28·49 lakhs to Rs. 34·55 lakhs, of which Ceylon's share was Rs. 25·86 lakhs and Japan's share Rs. 3·96 lakhs. Shipments of bones amounted to Rs. 4·37 lakhs, bonemeal to Rs 4·67 lakhs, fish manure to Rs. 8·29 lakhs, fish guano to Rs. 16·50 lakhs and other kinds to Rs. 0·72 lakh. Under metallic ores, shipments of *chromite* declined from 25,877 tons valued at Rs. 9·18 lakhs to 11,397 tons valued at Rs. 3·43 lakhs, the share of the United States being Rs. 2·47 lakhs Exports of *manganese ore* declined from Rs. 1·52 lakhs to Rs. 1·40 lakhs. Owing to the resumption of mining works in the mica districts exports of *mica* expanded from 2,686 tons valued at Rs 1·94 lakhs to 6,218 tons valued at Rs. 7·71 lakhs, the United Kingdom taking 92 per cent of the quantity. The total trade of *wood and timber* rose from Rs 8 lakhs to Rs 11·35 lakhs as a result of larger shipments of sandalwood to the Netherlands and the United States of America which rose from Rs. 4·48 lakhs to Rs. 6·97 lakhs.

III.—ARTICLES WHOLLY OR MAINLY MANUFACTURED.

The total value under this head increased from Rs. 825·55 lakhs to Rs. 934·75 lakhs.

45. **Chemicals, drugs and medicines.**—The value of exports under this head improved from Rs. 12·34 lakhs to Rs. 15·22 lakhs. Exports of *nux-vomica* went up from 1,307 tons to 1,654 tons in quantity, but the value declined from

Rs. 4·43 lakhs to Rs. 3·57 lakhs owing to reduction in prices. Despatches of *senna* expanded from Rs. 6·85 lakhs to Rs. 7·13 lakhs to which the United States of America contributed Rs. 4·67 lakhs. Foreign Exports.

46. Coir manufactures.—Exports of coir, yarn and matting amounted to Rs. 100·59 lakhs as against 107·42 lakhs. Shipments to the United Kingdom and Germany declined by Rs. 8·13 lakhs and Rs. 2·41 lakhs respectively, while those to the Netherlands, Belgium, France and Japan expanded by more than a lakh each.

47. Dyes and colours.—The total value of exports of dyeing and tanning substances rose from Rs. 9·43 lakhs to Rs. 14·74 lakhs. Exports of *indigo* expanded from 37 tons valued at Rs. 5·20 lakhs to 137 tons valued at Rs. 8·41 lakhs owing to larger despatches to Egypt and Japan which imported to the value of Rs. 3·63 and 1·71 lakhs as against Rs. 3·26 lakhs and 0·45 lakh. The increase to Japan is attributable to the preference of natural indigo in certain branches of the silk industry. Exports of *myrobalans* increased slightly and those of *turmeric* from Rs. 2·84 lakhs to Rs. 5·93 lakhs, Ceylon and the Straits Settlements being the chief destinations.

48. Hides and skins, tanned or dressed.—There was a further expansion in the export trade of *tanned hides and skins* which rose from 12,091 tons to 15,412 tons in volume and from Rs. 409·52 lakhs to Rs. 490·20 lakhs in volume representing 14 per cent of the total export trade of the Presidency. Exports of *tanned hides* increased from 8,075 tons to 11,127 tons or by 38 per cent in weight and from Rs. 170·01 lakhs to Rs. 218·97 lakhs or 46 per cent in value. The increase was due to the larger shipments of cow hides to the United Kingdom on account of the greatly improved position of the leather trade at Home consequent on the clearance of the accumulations of leather bought by Government for war purposes. The first five months of 1923 saw a steady demand and sharp rise in values, but from June to October the market was very dull and prices fell back considerably though the general price level in 1923 was much above that of 1922. At the end of 1923, prices rose again suddenly and a strong demand was apparent from the Home market while the production of E. I. Kip leather fell off considerably. Of the total quantity shipped, the United Kingdom took 10,927 tons or 98 per cent. Exports of *tanned skins* amounted to 4,285 tons valued at Rs. 241·23 lakhs as compared with 4,016 tons valued at Rs. 238·31 lakhs, an increase of 6 per cent in weight and nearly one per cent in value. While shipments of sheep skins expanded from 2,860 tons to 3,237 tons, those of goat skins declined from 1,156 tons to 997 tons. The increased demand for sheep skins was mainly due to a general demand for cheap leather, and to a large extent sheep are being used to replace goat which are considerably dearer. The demand for chrome tanned goat skins is gradually superseding the bark tanned article. The share of the United Kingdom in the total exports of tanned skins declined from Rs. 168·36 lakhs to Rs. 157·01 lakhs, while those of Japan and the Straits Settlements (consisting of sheep skins) and of the United States increased from Rs. 40·41, 10·21 and 13·33 lakhs to Rs. 47·28, 12·41 and 18·18 lakhs. The following table shows in detail the quantity and average declared value per lb. of the different kinds of tanned hides and skins shipped during the past two years and during the year 1913–14:—

cakes Rs. 16·81 lakhs, coconut cakes Rs. 1·72 lakhs and castor cakes Rs. 0·95 lakh. Ceylon took almost all the sesamum cake and castor cake and Rs. 12·04 lakhs worth of groundnut cake.

50. Yarns and textile fabrics.—Exports of *cotton twists and yarn* amounted to 322,638 lb. valued at Rs. 3·85 lakhs as against 560,328 lb. valued at Rs. 6·48 lakhs, a decline of 42 per cent in quantity and 39 per cent in value. Shipments to China fell from Rs. 5·11 lakhs to Rs. 3·23 lakhs partly owing to the competition of Japanese mills situated in Shanghai and partly to unsettled political state of China. Exports of *cotton piece-goods* improved from 35·03 million yards to 38·17 million yards in quantity and from Rs. 219·25 lakhs to Rs. 231·44 lakhs in value. Nearly 98 per cent of the piece-goods were *coloured goods* consisting of lungis, saris and Madras cloths which amounted to Rs. 226·43 lakhs as against Rs. 215·32 lakhs. Shipments to the Straits Settlements, Ceylon, Java and the Federated Malay States amounted to Rs. 152·58, 59·60, 6·43 and 4·04 lakhs as against 148·39, 59·94, 1·03 and 2·81 lakhs in 1922–23. The increase was due to more demand for Indian piece-goods among emigrants whose numbers have increased in 1923–24 owing to the revival of the tea and rubber industries. Despatches of *grey goods* improved from Rs. 1·78 lakhs to Rs. 3·66 lakhs, while those of *white goods* declined from Rs. 2·14 lakhs to Rs. 1·36 lakhs. The export trade in Madras *handkerchiefs* made on hand looms around Madras increased from Rs. 24·16 lakhs to Rs. 32·96 lakhs, almost the whole of which went to the United Kingdom. The increase was due to the better trade conditions, longstanding stocks having gone into consumption. Exports of *woollen goods* improved from Rs. 11·07 lakhs to Rs. 13·78 lakhs in consequence of larger despatches of carpets and rugs to the United Kingdom and the United States of America.

IV.—LIVING ANIMALS.

51. The value of *animals* shipped from this Presidency to foreign countries went up from Rs. 18·53 lakhs to Rs. 20·95 lakhs. Exports were divided amongst Ceylon (Rs. 17·03 lakhs), the Straits Settlements (Rs. 2·64 lakhs) and the Federated Malay States (Rs. 1·23 lakhs). The total value of the *Government stores* imported and exported amounted to Rs. 48·41 lakhs and Rs. 2·45 lakhs respectively as compared with Rs. 50·41 lakhs and Rs. 1·50 lakhs in the previous year. Decreased imports are noticeable under telegraph materials (—Rs. 5·12 lakhs), paper and pasteboard (—Rs. 2·30 lakhs) and sundries (—Rs. 5·07 lakhs) and these were set off by increased imports under stationery (+ Rs. 5·56 lakhs), machinery (+ Rs. 3·98 lakhs) and woollen piece-goods (+ Rs. 1·68 lakhs). Freights.—During the year under review, rates on general cargo have seen only one change, viz., an all round rise of 5*s* on 15th March 1924. Rates on seeds have been subject to the usual fluctuations due to the instability of the home markets and the seasonable variation of the quantity of groundnuts and other seeds available for export. In April 1923 the rate on groundnuts to Marseilles was 32*s* 6*d* which dropped to 27*s* 6*d* by the middle of June, to 25*s* by the middle of July, and to 22*s* 6*d* by the middle of August (the bottom rate of the year). From September onwards the rate began to rise, 25*s* being the rate on the 5th of the month, 27*s* 6*d* on the 26th, 30*s* on the 13th October, 31*s* 3*d* on the 8th January 1924 and 35*s* at the end

of January, which continued up to 12th March when it dropped to 32*s* 6*d*, the closing rate for the year. The rates to the United Kingdom and other continental ports have been 2*s* 6*d* higher throughout the year and those on castor seeds and niger seeds were 2*s* 6*d* and 5*s* higher.

The trade

of *Porto Novo* amounted to Rs. 55·09 lakhs as against Rs 58·92 lakhs and the decrease is attributable to smaller shipments of groundnuts and coloured piece-goods. Smaller arrivals of grain and pulse and smaller despatches of sugar coastwise resulted in a set-back of Rs. 11·27 lakhs in the trade of *Kalesikarapatnam*. The trade of *Bimlipatam* declined from Rs. 25·99 lakhs to Rs. 25·04 lakhs as a result of smaller despatches of groundnuts and raw jute to foreign countries, while shipments of sugar showed an increase.
